CITY OF KINGSTON, N. Y., WEDNESDAY EVENING, DECEMBER 6, 1916.

PRICE TWO CENTS.

GERMANS ADMIT RUSSIAN SUCCESS

By Telegram to The Freeman.
Berlin, via Sayville wireless, Dec. 6.—By a series of new and powerful attacks the Russians on the eastern frontier of Rumania succeeded in breaking through the first line positions of the Austro-Germans at one point, the German war office admitted today.

This reverse befell the Teutons in the sector of the Protosul Valley, the Austro-Germans fell back to fortified second line positions where the Russians were repulsed.

Elsewhere on the long Rumanian battle line the Teutons were successful, pushing forward on three sides of Bucharest.

Austro-Hungarian troops captured the town of Sinaia last night.

Sinaia lies south of Tomos Pass, on the southern fringe of the Transylvanian Alps.

North of Bucharest von Mackensen's Austro-German forces are fighting their way towards the Bucharest-Ploesti-Kimpina railroad. This is one of the two railway avenues of retreat open to the Russo-Rumanian garrison in Bucharest.

South of Bucharest, the Danube army has driven the Russo-Rumanian forces from the towns they still held on the southern bank of the Argesu river.

The official report says that this army is "advancing towards Bucharest."

In southwestern Wallachia the Rumanian forces are retreating in confusion.

The capture of more than 6,000 additional prisoners is reported.

SANITARIUM WORK SHOWS NO LET-UP

Volunteers Outside of Regular Teams Are Obtaining Cards From Headquarters and an Effort Will be Made to Reach Everyone Desirous of Giving.

The Benedictine Sanitarium campaign workers show no disposition to let up in their efforts during the closing days of the campaign to make the addition to the building. More cards were taken from headquarters yesterday than at any day during the campaign. Several volunteer workers who are not members of any team, offered to make a canvass of their locality and took cards from headquarters by the hundreds. An extra effort will be made to reach everyone in the city who desires to give.

By the addition of these volunteer workers in their respective localities, it is hoped that the 4,000 cards remaining at headquarters can be taken out before the closing of the campaign. The public is asked to assist the workers in every way possible by phoning to headquarters for pledge cards or mailing their checks to headquarters, payable to Cornelius Hume, treasurer, or calling in person. The meeting of the workers Tuesday evening at the supper in the assembly room was one of the best yet.

Committees today in automobiles are visiting the surrounding territory with a view to getting subscriptions in those localities adjacent to the city.

One of the workers made a canvass of the board of supervisors and secured about \$100.

The returns last evening were as follows:

Team No. 3	\$ 50.00
Team No. 7	65.00
Team No. 1	147.25
Team No. 10	179.50
Team No. 2	100.00
Team No. 4	327.00
Team No. 12	20.50

\$ 839.25
Previous reports ... \$ 2,235.70
Total ... \$ 3,074.95

Fire at Millbrook.

Millbrook, Dutchess county, was the scene of a disastrous fire Tuesday morning when a three story hotel, a barn, livery stable and three stores were consumed before volunteers could check the progress of the blaze. It is said the loss will reach \$100,000 but this figure is no doubt exaggerated.

Boy's Back Was Broken.

William H. Horton, Jr., son of a Saybrook cattle dealer, died Tuesday morning in a Middletown Hospital within a half hour after an automobile accident near Buville, Orange county, where his Ford car slid into a stone wall. The boy's back was broken.

Go to Rhinebeck.

Miss Katherine Murphy, daughter of a policeman and Mrs. James J. Murphy of Crane street, and a graduate of the Kingston City Hospital training class for nurses has accepted a position as school nurse with the Thompson Home Community Centre at Rhinebeck.

Return to Denmark Home.

Mr. and Mrs. H. Eklund of Middletown, sailed Tuesday for their home in Denmark. They have been residents of the Orange county metropolis for three years.

HURLEY AVENUE FOLKS PROTEST

Threaten Legal Action to Prevent Being Left Without Water and With Street Torn up and Impassable.

The condition in which it is proposed to leave Hurley avenue, during the winter pending the completion of the contract for the improvement of that thoroughfare next spring, has aroused the residents along the street, who have communicated with State Highway Commissioner Edwin Duffey, with the Board of Public Works of this city and have retained Van Buren and Loughran of this city to take appropriate action for their protection.

Deprived of Water Supply.

The removal of the tresspassing of the street preparatory to placing the foundation has left the water pipes exposed and the residents fear that their water supply will be cut off by the frost so that they will be unable to use city water for which they are paying, but also that they will be deprived of fire protection.

Entire Street Torn Up.

Work was commenced on the Hurley avenue improvement with the understanding that as much of the street would be torn up during the past fall as could be completed before cold weather set in instead of which the entire street was torn up and although cold weather has not set in work has been stopped. The street is a mudhole.

Main Entrance to City.

The street is one of the main entrances to Kingston. All traffic from Hurley, Stone Ridge and the outlying sections ordinarily comes to Kingston along Hurley avenue and the merchants of Kingston have received a large trade from that section. Traffic now comes by way of the cross-road from Hurley to the Lucas turnpike or by way of the Hurley Mountain road, both of which routes are much longer, and there has been a noticeable falling-off in the trade which usually has come to Kingston from that section. Vehicles are in danger of destruction if they pass over the Hurley avenue entrance to the city, and the condition of the street is more disgraceful than any other road ever has been. The Sawmill road, which for years was a byword for impossibility and impassability, in its worst days was like a newly-finished boulevard in comparison with Hurley avenue in its present condition.

City Has Paid Its Share.

The city of Kingston has paid its share of the cost of constructing the street according to the plans prepared by the highway department and approved by the board of supervisors, for that part of the street which is to be improved beyond the width of sixteen feet, which is the regulation size for state highways, and for that reason the Board of Public Works has "passed the buck" to the state highway department in the matter of responsibility. The highway department insisted that payment should be made before work was commenced, and it is understood that further work on the street has been called off by orders of that department.

Protest of the Public Against Injustice.

The protest to State Highway Commissioner Duffey and the Board of Public Works is as follows. To the Hon. Edwin Duffey, State Commissioner of Highways of the State of New York, Albany, N. Y., Board of Public Works, City of Kingston, New York:

We the undersigned citizens, residents, taxpayers, property owners and business men of the Twelfth Ward in the City of Kingston, N. Y., who are directly affected by construction or repair of Hurley avenue in said ward and city under the direction of the state commission of Highways of the State of New York and the Board of Public Works of the City of Kingston, do hereby earnestly and vigorously protest and object to the delay in said work and the unnecessary and unjust postponement of said work until next spring, as directed. That said Hurley avenue is a public street and that the undersigned are entitled to have a reasonable use of it as such. That it is now a mud hole practically impassable and impossible of traffic. That to leave the street in such a condition during the fall, winter and spring months will be a very unjust act and result in great loss and damage to the undersigned, not only to their property rights but to their business, all of which is entirely unnecessary. That by reason of the excavation in said street, the water pipes have been left exposed to the frost and that there is great danger, if some protection is not afforded, that the adjacent property owners will be deprived of water during the winter.

We do therefore demand that the said street be immediately made passable and safe for the coming winter at least and that our city authorities insist not only that it is done at once but it is done to their satisfaction.

Dated, Kingston, N. Y., December 4, 1916.

Signers of the Protest.

The protest, which has been received by the State Highway Department and the Board of Public

Letter to Commissioner Duffey.

Accompanying the protest, State Highway Commissioner Duffey received the following letter from Van Buren and Loughran, who have been retained by the residents to procure from the courts, if possible, the protection which neither the state nor city authorities have taken steps voluntarily to give them:

December 5th, 1916.

Hon. Edwin Duffey, State Commissioner of Highways, Albany, N. Y.

Dear Sir:—We have been retained by a great many property owners and business men of the Twelfth ward in this city whose property rights and conveniences are terribly affected by the abandonment of work on the construction of that portion of County Highway No. 1,378, known as Hurley avenue in this city under the contract of Philip Kramer. We understand that work has been called off pursuant to orders from your department.

The street is impassable and a disgrace to our city, to say nothing of the community. To leave it in its present shape during the balance of the fall months and through the winter and spring would be a very great hardship to those people. We understand that the city claims no responsibility in the matter but we are determined to see that something is done and done at once. To this end, a large number of the residents of the community affected have united in a petition or complaint asking for immediate relief, a copy of which we enclose. Will you kindly give the matter your immediate attention?

Faxs Of C. of C. Menu.

Mayor Thompson of Middletown has declared a two weeks' boycott on eggs beginning today. When Mayor Thompson came to the Chamber of Commerce dinner in this city Friday, his meal will have to be specially cooked with eggless sauce and dessert.

mediate attention and we trust that we may be advised at an early date that the condition has been remedied. We understand the city has paid its full proportion of the charge and cost and that the entire work is under your supervision and direction. For this reason, a special plea is made to you.

Respectfully yours,
VAN BUREN & LOUGHRAN.

BREWER PLAYED IN HARD LUCK

Had Argument With Friend—Hit Over Head With Dinner Pail. Had His Eye Glasses Smashed and Was Arrested.

Charles Brewer, who is employed on Rice's boatyard, played in hard luck on Tuesday afternoon, and all because of the rain which caused the men on the boatyard to leave off work for the day. Mr. Brewer before returning home had three glasses of beer, shot a few games of pool, and then while walking through one of the downtown streets met a friend, also employed on a boatyard, and stopped for a chat. Something Mr. Brewer said led his friend, who was named "Bill," to inform him he was a liar, and finally it wound up with Bill hitting Charles over the head with his dinner pail, inflicting a gash under one eye, and knocking Mr. Brewer's glasses off and breaking them. Mr. Brewer rightly decided he should retaliate and after picking up his broken glasses he set chase after Bill, but Bill escaped, and Police-
man Dempsey who happened along, placed Charles under arrest on a charge of being drunk and disorderly.

This morning Mr. Brewer told his tale of woe to Recorder Lang and denied that he was drunk. He said that Bill when he escaped him must have telephoned to a policeman which led to his—Brewer's—arrest. Recorder Lang decided to give Mr. Brewer another chance and discharged him.

ALDERMAN FISCHER LOST \$9,000 BOAT

In the terrific storm that broke over the east on November 23 a tow of ten boats were caught in the storm off the Pennington Light near Bridgeport, Conn., and nine of the barges in the tow sank. One of the barges, the John S. Thompson, owned by Alderman John A. Fischer of the Seventeenth Ward, was a total loss. The boat was in charge of Charles Fischer, a brother of the alderman, who escaped with his wife and child by getting aboard the one barge of the tow that did not sink. Alderman Fischer places his loss at \$9,000.

STORM WARNING SIGNALS ARE UP

By Telegram to The Freeman.
Washington, Dec. 6.—The weather bureau today issued the following storm warning:

First northwest storm warning, 3 p. m., Sandy Hook to Eastport, descending over St. Lawrence river valley and moving northeast. Will cause westerly gales today and tomorrow.

What the Noise Was.

During the morning session of court the stillness of the court room was broken by an almost continuous noise coming from the direction of the jail. The sound would indicate that some one was suffering great pain or was in severe trouble but the facts are that the noise was caused by a demented person who was confined to the jail while awaiting the arrival of attendants from Middletown State Hospital.

Kerkhove Early Closing.

The following business men of Kerkhove will close their stores and places of business after December 10, 1916, every evening at six o'clock excepting Wednesday and Saturday evenings of each week, and the week before Christmas commencing December 18, 1916, until further notice: S. Wilkinson, A. J. Anderson & Sons, J. Burnett Churchwell, W. Poppel, C. Van Etten, M. B. Wolf and James R. Doyle.

UNUSUAL PICTURES OF BONE GRAFTING

Films Taken at Front Exhibited by Dr. Fred H. Albee of New York Before Ulster County Medical Society—Word Pictures of War Also in Interest With Camera Product.

Nearly 200 persons, including members of the Ulster County Medical Society, members of the Greene County Medical Society, nurses in attendance at the polyomelitis clinic and others, saw on Tuesday evening the most unusual moving picture exhibition ever given in Kingston, when Dr. Fred H. Albee of New York lectured in St. Mary's Hall on bone transplanting.

Dr. Albee, as Dr. O'Meara said in introducing him, has not only a national but an international reputation and but recently returned from France where he was in the service of the French war office, demonstrating his specialty in the hospitals. The pictures, taken in a way to show the actual operations rather than for the purpose of making mere pictures, showed only the area of each operation and the surgeon's hands and instruments at work. This made it possible to greatly enlarge them from life size, so that every detail of the work was plain.

The pictures showed the sawing and chiseling out of pieces of healthy bone, the closing of the wound and the transplanting of this bone graft in place of diseased bone, the removal of which was also shown. As Dr. Albee said, the method was a combination of the work of a skilled tradesman doing bridge grafting and that of a skilled carpenter.

A picture more interesting from an artist standpoint, but not nearly so educational to the surgeons, showed a famous French surgeon removing a fragment of shrapnel from the heart of a soldier. A second scene showed the recovered patient, holding the fragment of shrapnel and indicating with it the scar left by the operation.

Damage by Zeppelins.

Dr. Albee prefaced the scientific part of his lecture with an informal talk on his experiences at and near the front. England, he said, was an armed camp, with troops from all over the world training for service at the front. Damage by Zeppelins has not been made public and is kept out of the newspapers. One instance where a Zeppelin dropped a bomb in a camp of Canadian troops, killing 25 men, was related and Dr. Albee said this never got into the newspapers and the Zeppelins have done great damage that the government has prevented the press from publishing.

Dr. Albee was in Berlin in 1909 and witnessed the arrival of Count Zeppelin's first airship to land in the Prussian capital. Two or three years later he made a trip in a Zeppelin. Last summer he made a trip in a French aeroplane with an aviator who a few years ago won a prize by ascending to a height of 200 feet. Last summer he ascended to a height of 6,000 feet in 15 minutes, and that is now the test required before the aeroplane and aviator are accepted for service. The war has developed aviation rapidly and is developing other things, from surgery to the breeding of a special kind of ferrets for use in freeing the trenches of rats. It has developed skill in men in many lines. The most expert X-ray man in the French service was a hair dresser before the war and has learned the X-ray manipulation since the war began.

War's Demand of Chemist.

The Carrel-Dakin method of sterilizing wounds was described and Dr. Albee said that the contradictions of war were shown by the fact that the chemist, Dakin, had barely finished getting the system in order for the use of Dr. Carrel when he was summoned back to England to devise a poison gas that would be more deadly than that used by the Germans. In this Dakin succeeded, so that the same man who had made a solution that would save life had also made a gas that would kill more men than would ever be saved by the use of his solution.

An incident was related of a wounded soldier in a French hospital on whom the surgeons were about to perform a second operation and were told by an officer that they need not take the trouble as the man was to be shot for offense given an officer to perform a quarrel some time before he received the wound.

French are Confident.

So great is French confidence in ultimate victory that already windows are rented to sightseers for the triumphal parade that will be had in Paris when the war ends. Incidentally Dr. Albee remarked that in his opinion, while the allies would win, it would take at least three years more to subdue the Germans.

Proceeding Dr. Albee's lecture the medical society elected officers as nominated at the October meeting. Dr. C. V. Hasbrouck of Rosendale is the new president. Owing to the importance of the scientific program, the retiring president, Dr. O'Meara, made his annual address very brief.

ULSTER PARK.

Ulster Park, Dec. 6.—J. L. Shafer, a missionary of northern Japan, will occupy the pulpit of the Brick Church next Sunday morning. In the evening the Rev. C. Van Oostenbrugge will give one of his "Chalk Talks."

In spite of the storm the social held at the parsonage last Thursday evening was a decided success. About thirty-five were present and a nice sum netted for the Sunday school.

Eddie Was Very Good.

"Very Good Eddie," which had an exceptional run in New York theaters, played to big audiences at the Kingston Opera House Tuesday and Wednesday.

The music was catchy and the comedy was clean. The best comedy of the troupe was Harry Coleman, as clerk of the "Rip Van Winkle Inn," and the comedy effects depended principally on him.

LYDD-GEORGE TO BECOME PREMIER

By Telegram to The Freeman.
London, Dec. 6.—Political developments today pointed to War Secretary Lloyd-George as the next premier of England.

Following the refusal of Colonial Secretary A. Bonar Law to accept the post King George sent for Mr. Lloyd-George. It was accepted in many quarters as a foregone conclusion that the premiership would be offered to the war secretary and that he would accept.

There is strong ground for belief that Mr. Asquith, who resigned as premier last night, will have no place in the new coalition government.

Dispatches from Paris quote political writers as saying that the political upheavals may be followed by the resignation of General Joffre, commander-in-chief of the Allied armies.

EMERSON MOTORS RUSHING WORK

Machinery and Material Arriving Daily—New Building Nearly Completed—Nearly \$50,000 Spent Already on Plant.

The machinery and material in the Long Island plant of the Emerson Motor Company, Inc., is being removed to the Kingston factory, and a quantity of freight has been unloaded the past week for the Emerson concern. Saturday two car loads of general automobile parts were received and Tuesday four carloads were received, one of these cars containing the second lot of machinery and the other bringing bodies, frames, ties, etc. Today two car loads of automobile parts are being unloaded and bills of lading were received at the company's office for a shipment of springs by boat, together with a car load of bodies from Indianapolis, a carload of wheels and another shipment of machinery.

At the plant Contractor Dederick expects to have the new building completed on Saturday. With the repairs to the old plant the layout for this building will be \$15,000.

Efficiency Engineer Craik, Assistant Engineer Hunt and Engineer Hammond are at the local office now. Twenty-five men are now employed and this number will not be increased until early in January, as the company will not be able to begin operations actively until that time because of the non-arrival of motors.

In all between \$45,000 and \$50,000 has been expended in acquiring the local plant and for additions and repairs to the same. Including coal, about 15 carloads of material have been received. The company has paid out considerable in freight bills and for labor, and it is believed will have a modern plant all ready for speeding up operations in the new year.

Dimick Estate Settlement.

The judicial settlement of the accounts of Frederick S. Duncan and Ralph N. Voorhes, as executors of the will of Jeremiah D. Dimick of Rifton, was had before Surrogate Gill on Tuesday, and the accounts of the executors were finally settled. The surrogate sustained Judge Clearwater's objection to the item of \$6,000 counsel fee paid to John H. Hilliard, counsel for the executors. It was stricken from the account and the money was restored to the estate. The executors corrected an error of \$502.74 which they had erroneously taken as compensation but which was restored upon their attention being called to it. John H. Hilliard of New York City, appeared for the executors. Judge John G. Van Etten for Harcourt Dimick; Frederick Stephan as guardian ad litem, and Judge Clearwater for Altha Corey Dimick, widow of the testator.

Christmas for Tuberculosis Hospital.

The young people of the Sunday School of the Albany Avenue Baptist Church have kindly consented to be responsible for the Christmas entertainment at the Tuberculosis Hospital this year, and they will present a fine program for the pleasure of the patients at the hospital. They will also assist Mrs. Reed in putting up the customary gifts for the sick people. All persons wishing to give fruit, candy, presents or money with which to purchase gifts, are asked to send the same to Mrs. C. N. Reed, 43 Crown street, telephone 1412-W. There are twenty patients at the hospital, and Mrs. Reed, who for several years has had charge of the Christmas entertainment given by the young people of one or another of our churches, feels sure that the people of Kingston will be as generous to the hospital this year as formerly.

BREWERY 'PHONE 66

KINGSTON

LANDS FOR ROADS ARE CHEAPER NOW

Supervisors Saved Considerable Money to County by Wise Practice of Acquiring Rights of Way at Reasonable Figures Before Approving of State Highways.

The action of the board of supervisors some time ago in requiring that rights of way for state and county highways shall be acquired before plans for the improvement of such highways are approved has had a beneficial effect, according to figures submitted by the committee on securing rights of way for state roads, submitted to the board of supervisors at Monday night's session. Excessive prices for land have not been paid and will not be paid by the committee, which takes into consideration the benefits to be derived by the owners from the construction of improved highways. If owners are not willing to aid in road construction by being reasonable in the amounts asked for strips of land required in straightening out the highways, they may not derive the benefits that result from improved roads.

A total of \$2,968 has been expended by the committee during the past year for rights of way. The amounts paid for land required and the roads for which the land was necessary, as embodied in the committee's report, were as follows:

Road 603—Napeneoch (Montola)	
John A. Fuller	\$25
Road 1,463—Ulster Landing-Glasco	
Christopher S. Genthner	\$15
Robert F. Boyce	20
John W. Cassell	35
Margaret Snyder	25
David Ebel	15
Martin Snyder	125
Total	\$235

Road 1,410—Rosendale Village	
Silas E. Auchmoody	\$200
Louis Bruder	75
Maria L. Sheeley	50
Susie E. Hill	50
John C. Mackervier	25
Total	\$400

Road 351—Highland Landing-Highland	
Emily Brindage	\$50
Frederica DuBois	50
Marcus D. Rose	25
Mary D. Malloch	25
Philip Schantz	45
Henry H. Atkins	300
Total	\$498

Road 1,373—Hurley-Kingston	
Della C. Dumond	\$55
Road 5,570—West Hurley-Woodstock	
Cornelius Rieley	\$200
Henry C. Elmendorf	15
J. Wesley Mosher	165
John H. Saxe, for Leander Steel	140
Nathaniel M. Nash	75
Charles M. Kiersted	235
Total	\$820

Road 1,161—High Falls-Stone Ridge	
John W. Eckert, attorney for John Y. Sahler	\$300
Road 1,417—Wallkill-Newburgh	
Part I	
Andrew Byczek	\$55
John W. Eckert, attorney for Calvin Christian	100
William Hotaling	100
Charles Dunn	50
Edgar A. Radiker	15
James S. Radiker	10
John Kopeskie	35
William Mecheike	20
Total	\$395

Road 1,418—Milton Landing-Milton	
Caroline H. McNicholas	\$100
Carl C. Christensen	100
Total	\$200

Needs for the parcels conveyed by the above owners are on file in the county clerk's office, and the committee recommended that \$2,968, being the total amount expended, as above, be levied on the county.

Road 1,418—Milton Landing-Milton	
Caroline H. McNicholas	\$100
Carl C. Christensen	100
Total	\$200

ASHOKAN. Dec. 5.—Miss Lena Merrihew, of the Oneonta Normal School, spent the Thanksgiving vacation at her home here. Roy Fox of Walden spent the week end at Mrs. B. Corysland's. John Secor was home on Sunday and Monday. Mrs. Charles Davis will entertain the M. E. Ladies' Aid for the meet-

ing of Thursday, December 7. Miss May Bogart, Miss Laura Mae, Miss Dorothy Davis and Miss Katharine Avery went to the entertainment at Glenford Tuesday night and reported a fine time.

The "bee" held last Monday to work on the M. E. Church ground was a very successful affair. The Ladies' Aid furnished the dinner for the men.

Miss Ruth Dingman spent the week end in Kingston. George Barclay returned from Maine last week.

T. D. Barclay left for New York on Sunday. Mrs. Sarah Benson of Rhinecliff visited at her brother's, Lewis Thiel, recently.

Mrs. William Davis and children are visiting in New Jersey for a few days.

Mrs. Harvey Slikworth visited in Phoenix Saturday at her daughter's, Mrs. Basil Gudney.

Mr. and Mrs. Walter Bogart and children spent Thanksgiving Day in Kingston.

Marshall Bogart and lady friend of Newburgh visited at his father's recently.

Mrs. B. Coykendall will entertain the Wide Awake Boys' Club at the M. E. Sunday school on Friday.

Mrs. Robert Secor and daughter, Gladys, entertained the Gem Class on Saturday.

The traveling state library has arrived at the school house. Anyone can get a book from it by applying to Miss Little, who acts as librarian.

Mrs. E. Terwilliger of Kingston spent some days last week at her home in Ashokan.

Mr. and Mrs. E. H. Bogart of Kingston spent Sunday at their summer home.

WEST PARK. West Park, Dec. 5.—At the Thanksgiving services at Ascension Church, the offerings, amounting to \$2,200, were given to the new Cross work in France.

William Schickle visited his hillside bungalow on Sunday and finding the weather propitious, footed it from West Park to Highland. He may well be the pioneer of the Walking Club.

Jewell K. Smith and Miss Helen Smith enjoyed their Thanksgiving Day with their mother, Mrs. J. J. Smith, at Hartsess.

Mrs. H. Hudson Covert and her daughter, Miss Myra Covert, spent a few days in New York recently, witnessing among other things the beautiful play of Ben Hur.

Rev. and Mrs. A. J. Allen spent Thanksgiving Day in Kingston, the guests of an aunt of Mrs. Allen.

Mr. and Mrs. Percy Ackert visited Gilbert Ackert, Jr., in Kingston on Thursday, attending the dance at the armory.

Herbert Gindrat was the guest of his mother, Mrs. Caroline Gindrat, the past week.

Mr. and Mrs. Paul MacEwen have returned to their New York home for the winter.

A number of our towns people are suffering from colds and grip, possibly through exposing themselves to the temptation of the sunny weather, which is often chilly and damp as well as beautiful.

MT. TREMPER. Mt. Tremper, Dec. 5.—The Sunday school scholars are practicing for a Christmas entertainment.

Mr. and Mrs. L. S. Randall and sons, Tommy and Stewart, and daughters, Birdie and Grace, spent Thanksgiving with their daughter, Mrs. Clarence Traver, at Rhinebeck. They motored there and back.

Miss Elizabeth Smith, who has been spending a few days with her cousin, Miss Gertrude Sylvester, has returned to her home in Bearsville.

The Rev. R. P. Ingersoll, Mrs. Ingersoll and Dorothy and Mr. and Mrs. Raymond Ingersoll motored here on Friday.

Mr. and Mrs. C. P. Smith and Mr. and Mrs. Martin Umber and little daughter spent Thanksgiving with Mr. and Mrs. G. Sherman Lockwood.

Miss Gertrude Sylvester and Norman Wilber spent Sunday with Mr. and Mrs. G. Edwin Wilber at Lake Hill.

Lindsay Hoyt of New York spent Thanksgiving with Dr. and Mrs. Hoyt.

Mr. and Mrs. Traver of Rhinebeck spent Sunday with Mrs. Traver's parents here.

HIGH FALLS. High Falls, Dec. 5.—Mrs. George Monroe and children of Newburgh, who have been visiting relatives in this place, returned home the past week.

Mr. and Mrs. Fred Christians of Poughkeepsie have been visiting at the home of her parents, Mr. and Mrs. Charles Christians.

Sold in 2 and 5 lb. cartons

Make your Christmas sweetmeats the best ever by using Domino Cane Sugar. Domino Granulated is the best sugar for cakes, pies and puddings. Domino Powdered and Confectioners Sugars for candies, pastries and desserts.

Sweeten it with Domino Granulated, Tablet, Powdered, Confectioners

Thomas Snyder and Marvin Van Wageningen were in town the past Tuesday.

Mrs. Chip Quick was in town one day the past week.

Mr. and Mrs. Festus Yeaple motored to Kingston on Saturday morning of the past week.

Jacob Stokke was in town on Saturday.

Claude Shaw of Walden, who recently underwent a serious operation, is doing nicely at this writing.

MOHONK LAKE. Mohonk Lake, Dec. 5.—Mr. and Mrs. Simon Prindle and son Albert spent Thanksgiving with their parents at Kripplush.

Mr. Wasson Steen spent Saturday at Poughkeepsie.

Mr. and Mrs. Eugene Weaver and son Roland spent Thanksgiving with relatives at Clintondale.

Andrew Lawrence and Charles Reinhart spent Saturday night and Sunday at their homes at New Paltz.

Mr. and Mrs. Robert Meek spent Thanksgiving with relatives at Albany.

Eli Evans and William Christiana spent Sunday at their homes at Altigerville.

Miss Hazel Schoonmaker of New Paltz spent the week end with Mrs. Eugene Weaver.

Mr. and Mrs. James Schoonmaker spent Thanksgiving at Highland.

Harry Van Demark, who is employed at this place, spent Sunday at his home at High Falls.

Mr. and Mrs. James Schoonmaker spent Friday and Saturday at Kingston and High Falls.

WHITFIELD. Whitfield, Dec. 5.—Mr. and Mrs. DeWitt Barley, Mrs. J. Pettibone and Mrs. M. J. Middagh spent Thanksgiving with Mr. and Mrs. Albert Barley.

Mr. and Mrs. Hiram Quick and Mr. and Mrs. J. F. Quick were entertained at the home of Mr. and Mrs. Luther Quick on Thursday.

Seymour Barley has returned home, after spending the summer at Shrub Oak.

All were very sorry to hear of the death of Mrs. Ennist.

Mr. and Mrs. Chester Newell, Mrs. W. Maxwell, Miss Edna Wood and Frank Wood spent a few days last week with their parents. Mr. and Mrs. Erich Wood.

Doctor Fuller was in this place Sunday.

Mr. and Mrs. E. G. Barley and family also Harland Barley spent a few days last week with Mr. and Mrs. Frank Wood of Shrub Oak.

A number were entertained at the home of Mr. and Mrs. Jesse Quick on Thursday evening in honor of their daughter's birthday.

The KITCHEN CABINET

There is never a thing remembered so As a word with kindness fraught; And never a sky with as bright a glow As you made with a loving thought.

OLD-FASHIONED DISHES.

There might have been a better cake but there never has been one to equal the old-fashioned pound cake of our grandmothers. Cream two-thirds of a cupful of butter with two cupfuls of flour, beat one cupful of whole eggs until very light, then add to the eggs one and one-half cupfuls of sugar and a teaspoonful of baking powder.

Add the egg mixture to the flour and butter, a little at a time, until all are well mixed. Flavor to taste and beat vigorously with long, light strokes. Bake in a loaf or a shallow tin.

Banbury Tarts.—Make the tarts as usual or as small turnover pies, fill with the following: A half cupful of raisins, a half cupful of currants, the rind and juice of a half a lemon, a little jelly and sugar, if needed, all cooked until smooth, then fill the tarts.

Boiled Ham.—Get a good country cured ham and soak overnight. Next morning put it into a boiler with enough cold water to cover, add a pint of vinegar and four cupfuls of brown sugar, one dozen cloves. Let the ham simmer three hours, then place it in a shallow pan, skin side up, add some of the vinegar in which it was boiled and bake two hours, basting often.

When done remove the skin. Make a dressing of one beaten egg, two teaspoonfuls of sugar, one teaspoonful of dry mustard, one-half a teaspoonful of celery seed. Spread this over the top of the ham, sprinkle with bread crumbs, put into the oven, let brown, dust with pepper in spots the size of a half dollar.

Baked Hubbard Squash.—Select well ripened squash, cut in half, remove the seeds, scraping the inside to remove all the membrane. Bake in the shell and when done, scrape out the squash and mash with plenty of butter, salt and pepper to taste.

Chicken Pie.—For chicken pie, cut up two fowls and cook with an onion and a slice or two of salt pork until tender; then place in the baking dish cover with a gravy made of the chicken liquor, cream and seasonings thickened with flour; cover with a rich biscuit crust in the form of biscuits as it is easier to serve.

Neenie Maxwell

HEATING TIME! Now is the time to prepare for the cold weather which will soon be upon us.

Let us give you an estimate on installing an up-to-date, guaranteed hot air or hot water heating system in your home.

HEART BUSTER IN THE TOMBS

By Telegraph to The Freeman.

New York, Dec. 6.—With most of the crimes in the calendar pending against him, Charles H. Wax, nee Oliver Osborne, the brilliant buster of feminine hearts, sat in his cell in Tombs prison today awaiting the coming of his victims. A dozen or more will attempt to identify him today as the will-o'-the-wisp wooer who fitted into their lives and out again with a flagrant disregard for their feelings.

Wax spent the night in the Tombs although no definite charges have been lodged against him. "We can convict him of most anything," said one of the government's prosecutors. "Informal charges of bigamy, grand larceny, violation of the Mann Act, assault, being a fugitive from justice, obtaining money under false pretenses, using the mails to defraud—all these and many more can be lodged against him. If the accusations of his victims stand up, and there appears little doubt that they will."

Included in the host of women who will try to identify Wax today are Maise Mason, whom he is said to have married under the name of Nye; Rose H. Kaiser, whom he is said to have wooed and seduced and promised to marry; Katherine Mailenheimer, a nurse girl whose savings he is said to have absconded; Catherine Canfield, Florence Strauss, Blanche Unger, Mary West and Mrs. Stewart Deaham, his former landlady. James W. Osborne, the former district attorney, whose likeness to the prisoner caused him to become the central figure in a \$50,000 breach of promise suit brought by Rae Tanzer, a pretty milliner, also will look at Wax.

Several telegrams have come to police headquarters here asking that the prisoner be held until identification could be made. One of these came from the warden of the state penitentiary in Oregon. It stated that it is believed there that Wax is a forger who escaped from the prison after serving four months of a five year sentence.

The freedom with which Wax is said to have told of his escapades while in Chicago was entirely lacking today. Taciturnity, sat heavily on him and the only remark that could be elicited was a threat to "knock the block off" of a newspaper photographer who attempted to snap him.

Dilatary.
She—Here's a woman who got married. Deserted her husband and eloped all in one day. He—What delayed her?
—St. Louis Post-Dispatch.

Overstayed His Market.
"What broke? Why, the last time I saw you told me you were on the road to fortune."
"So I was but I went past my old time."—Boston Transcript.

THE FACT IS THING & CO. SELL FOR LESS THE ? IS HOW CAN THEY DO IT On the Unparalleled HIGH MARKET

**HERE'S ONE ANSWER
BECAUSE**
We have always been square with the public—the many fears of our business life have taught us to know that people appreciate value, and more, for every dollar they spend.

We have always tried to give the public about twenty-five per cent more for a dollar than any common shoe store.

It's paid—we're doing two million a year in fourteen stores.

You'll find other answers on other pages.

INDIAN SUMMER'S GENTLE PRESENCE

Weather Unusual for This Time of Year and is Decided Contrast to December 1915. When Esopus Young Folk Were Skating and Snow Was Deep.

Everyone firmly believes that each year just before cold weather sets in for the winter there is a short spell of warm weather which is known as "Indian Summer." Apparently we are at present enjoying Indian Summer although the weather might be mistaken for early spring rather than December. A few weeks ago, following a few warm days, there was a cold snap and the weather prophets predicted winter; however, they were disappointed and winter is not here yet.

One year ago on December 5, snow fell and in the mountains the fall amounted to two inches although the fall was lighter in this city. Turning back to a year ago, December 6, which was Sunday, we find that "the young people of Esopus and Ulster Park enjoyed skating on the ponds along the railroad at those stations." This is in sharp contrast with the springlike weather we are now experiencing.

However we are not certain whether we are to have any winter at all, judging from the predictions of the "weather wise" who are sure that the winter will be a mild one with little cold and snow. This will be good news to the unfortunate who have not filled the coal bins yet, but those who have been fortunate enough to lay in a good supply of the precious article should not be troubled as there is no doubt but that it will be needed before the bluebirds come again.

On December 12, 1915, a heavy snow storm visited Kingston and raged for several hours, delaying trains, trolleys and finally completely cutting off the outside world, so complete was the destruction of telephone and telegraph wires. The storm was the worst with one exception in the memory of the younger generation and only the memorable storms of March, 1914, and March, 1888, surpassed it. The city was without lights for several days and the effects of the storm were felt for a week.

On December 13, 1915, The Freeman noted that three inches of ice had formed at Wilbur and ice men were unable to get further than Hudson and closer their Albany route for the winter.

What may be the condition of the weather a week from now cannot be predicted but it is doubtful if there will be two feet of snow upon the ground as there was last year.

DAY'S DOINGS IN CONGRESS

By Telegraph to The Freeman.
Washington, Dec. 6.—House and senate met at noon.

Naval affairs sub-committee of house continued discussion of naval personnel legislation with Rear Admiral Palmer.

House committee on public buildings and grounds held hearing on project to purchase Monticello, Jefferson's old home.

House foreign affairs committee considered measure to divert more water for power purposes from Niagara river.

Committees on military affairs, Indian affairs, postoffice and agriculture worked on appropriation bills.

Senate renewed debate on corrupt practices bill.

Joint congressional railroad committee resumed hearings.

AUTOMOBILE NOTES.

Charles Behrens, Kingston agent for the Indian motorcycles, this morning received a handsome 1916 model, equipped with side car.

A 550 gallon gasoline tank and large pump have been placed in front of the auto supply store of the Universal Tire and Rubber Company on Fair street near John. On the front of the pump is a computer, showing the purchaser the exact amount of gas which he is receiving, a departure from the method of measuring out the product in use at other pumps through the city. This pump can pour twenty gallons in a minute.

NUGGETS OF NEWS.

Unusual Events Briefly Told in Telegraph Despatches.

New York.—It will cost New York city about \$10 for each of the 4,014 votes cast at the recent election by New York militiamen on the Mexican border.

New York.—Tortoise shell rimmed glasses giving their wearers an owl air of wisdom, are taboo at Columbia Law School. Students wearing them were called upon to recite more frequently than fellows, without glasses or with plain spectacles, it was explained.

Baltimore, Md.—Fotball Keene, widely known sportsman and crack polo player, lay in a state of coma at the Hartford Hunt Club today unable to explain how he suffered injuries which may prove fatal. Physicians attending him declined to state the extent of his injuries other than to say they were "serious." Keene was presumably thrown from his mount in a fox chase yesterday.

Fine Banquet Held.

Tuesday evening one of the most delightful banquets held in a number of years was given in the Albany Avenue Baptist Church under the auspices of the Christian Endeavor Society and was served by the Ladies Aid Society. The tables were artistically decorated with cut flowers and the room with autumn leaves. Following the banquet a fine musical program was rendered by Schmidt brothers on the violin and Fred J. Schumaker of the high school faculty rendered a number of vocal solos in fine style. Following the musical program excellent addresses were delivered by the Rev. A. S. Coit, pastor of the church, and Secretary Thornberry of the Y. M. C. A.

The annual meeting of Wiltwyck Chapter, D. A. R., will be held in the chapter house on Thursday afternoon at 3 o'clock, preceded by the board meeting at 2 o'clock.

Tuesday a very pleasant christening was held at the residence of Mr. and Mrs. F. C. Simon at No. 34 Grand street when their son, Benjamin Simon, was christened by the Rev. E. A. Pessin of New York city. The god father was Herman Rafalowsky and the god mother was Miss E. Vogel.

Following the ceremony an elaborate banquet was served the guests and a collection was taken up for the war sufferers. Among the guests present were Mr. and Mrs. Salsberg of Delhi, B. Simon of Ontario, Mr. Jacobson, Donald Smith, Louis and H. Simon, Mr. and Mrs. Israel, Mrs. Schwartz, Mr. Laizel, Mr. Kershendium, B. Schon, Mrs. Rutenberg, Mrs. Myers, Mrs. Sherman, Miss Eva Sherman, Mrs. E. Simon and son, Otto.

Lowell Club.

The Lowell Club met with Mrs. James H. Everett on Tuesday afternoon of this week. "Scottish Heroines" were given as the response to the roll call. Mrs. Lewis had the paper for the day, her topic being, "Marry Queen of Scots." The carefully prepared, well presented and comprehensive paper was followed by a discussion. "Did Mary Deserve her Fate?" led by Mrs. Lewis and participated in by Mrs. Brigham, Mrs. Hale, Mrs. Witter and Mrs. Atkins. The afternoon's program closed with a reading, "Last Moments of Mary," given by Mrs.

The texture of the clay or cement, the contour of the object, the smoothness or irregularity of its finish, or the mellow richness of its coloring are the elements out of which its decorative work is born. A quiet charm, appealing frankness resulting from unaffected use of material and air of dignity give distinction to such pottery.

Mrs. Keefe had the second paper in which she told of the "Beauty of Tile and its Place in Architecture." Mrs. Keefe told of the introduction of tile by the Egyptians and its perfection by the Assyrians and Babylonians, and of its first serious use in ecclesiastical architecture. The idea of incised tile was probably gained from the mosaics of Italy, the depressed places being filled with clay of different color and in plastic state and the surface then glazed. All tile work was carefully designed for the place intended. The paper then gave an interesting description of the plan and decorative scheme of floor tiling as found in churches and cathedrals, beginning simply in the vestibule and growing more and more ornate and richly designed and colored as the work is approached and finally reached, throughout the use and work is made colorful and harmonious with the mural decorations.

All were greatly interested in the clear and comprehensive presentation of this little known subject. The program closed with a reading by Miss Sadie Schutt, from Mark Twain's "Captain Stormfield's Visit to Heaven."

No Wonder.
Mrs. Crabshaw—Don't cry, Willie. I'm not going to punish you this time, for you hurried when I called you downstairs.—New York Times.

Death expecteth thee everywhere. Be wise, therefore, and expect death everywhere.—Quarles.

The Ladies' Needlework Guild will hold its annual meeting Thursday afternoon at 2 o'clock in the First Presbyterian Church, Elmwood street. A cordial invitation is extended to all interested in this charitable work to come and see the wonderful garments given by the kind ladies of Kingston for the comfort and joy of the city poor in the cold months of winter.

The Ladies who are working on the residence of William F. Rafferty on Broadway near Delaware avenue are as follows: L. F. Bannon, plumbing and heating; W. D. Costello, carpenter work; William McCullough, mason work; Robert McKittick, painting; Joseph A. Mc-

ODDS AND ENDS.

The Missionary Society of Trinity M. E. Church will hold a food sale at the home of Mrs. W. D. Hale, 257 Broadway, Friday afternoon from 2 to 5 o'clock.

The ladies of St. Peter's Church will hold a coffee social at the school hall on Adams street on Friday afternoon from 2 until 6 o'clock. All ladies of the parish and their friends are kindly invited to attend.

The Woman's Missionary Society of the First Dutch Church will hold a spiritual meeting in place of the mid-week prayer meeting Thursday evening. The pastor will give a discourse, illustrated by the stereopticon, on "The South Sea Islands." An offering will be taken.

The Parent-Teachers' Association of School No. 1 will hold its monthly meeting Thursday afternoon at 2:30 o'clock at the school. Mrs. P. J. Gallagher, the delegate to the Binghamton convention, will be present and will give a very interesting address. A full attendance is requested.

The Ladies' Needlework Guild will hold its annual meeting Thursday afternoon at 2 o'clock in the First Presbyterian Church, Elmwood street. A cordial invitation is extended to all interested in this charitable work to come and see the wonderful garments given by the kind ladies of Kingston for the comfort and joy of the city poor in the cold months of winter.

The Ladies who are working on the residence of William F. Rafferty on Broadway near Delaware avenue are as follows: L. F. Bannon, plumbing and heating; W. D. Costello, carpenter work; William McCullough, mason work; Robert McKittick, painting; Joseph A. Mc-

DAMAGE CLAIMS AGAINST CITY

Two Claims One For \$1,500 And Other For \$150 Filed With City Fathers—Sewer Assessments—Other Matters.

Two damage claims against the city of Kingston were brought to the attention of the city fathers on Tuesday evening at the regular session at the city hall. The first was a claim for \$150 damages brought by Thomas Goldrick, whose automobile was damaged when it jumped a trench in Elmendorf street some time ago and landed against a pile of dirt. He claims the city was negligent. The other claim was that of Mrs. Carrie Supples who claims \$1,500 damages on the grounds that the grade was raised in front of her property in 1913. The corporation counsel of the city reported he had filed an answer to the Supples claim. The Goldrick claim was referred to the committee on finance, ways and means.

Alderman Connelly presided at the session in the absence of President Crane. The city fathers present at the roll call were Aldermen Smith, McKittrick, Schick, Marquardt, Leverich, Parish, Fischer, Kullman, Shultis, Brown and Purvis. The absentees were President Crane and Alderman Hull.

A communication from the National Septic Process League was referred to the board of public works. The league wanted Kingston to affiliate with it and sent a lengthy communication calling attention to the fact that the city of Shelbyville was being sued by the Cameron Company who claimed it was infringing on its patents in the matter of sewage disposal, and that the league had engaged a lawyer to defend the action. The league wanted the city to pay dues of \$25 a year. It seems that Kingston is using the septic system at the sewage disposal plant in Jacob's Valley and this matter had been up before.

Sewer Assessments.

The board of public works reported that sewers in Thomas street, Cornell street and Andrew street, had been completed and submitted an estimate of the cost of construction so that the city fathers could order a special assessment laid which was done.

The assessment orders were: Andrew street sewer—total cost \$973.96; 25 per cent amounting to \$243.49, to be paid by the board of public works and 75 per cent, amounting to \$730.47, to be paid by property owners benefited by the improvement.

Cornell street sewer—total cost \$563.85; 25 per cent amounting to \$140.96, to be paid by board, and \$422.89 by property owners. Thomas street sewer—total cost \$1,437.25 per cent, amounting to \$359.25, to be paid by board, and 75 per cent, amounting to \$1,077.75, to be paid by property owners.

Water Rent Unpaid.

The water board transmitted an uncollected water rent bill against the Knechtken Improvement Company amounting to \$125. The property is located on Pine Grove avenue, adjoining the Y. M. C. A.

Alderman Purvis introduced a resolution that the amount with 6 per cent interest be levied on the property in addition to the regular tax levy when it is laid. Carried.

Resolutions Offered.

By Alderman Schick, that copies of the charter be printed so that each citizen would have a copy. To committee on finance, ways and means.

Alderman Schick for Alderman Connelly, that board of public works fill holes on Franklin street, between Fair and Clinton avenue, and to repair cross walk on corner of Franklin street and Clinton avenue. To board of public works.

By Alderman Brown for Alderman Connelly, that board of public works fill in Wilbur avenue, between Pine street and Wallkill Valley bridge sufficiently to make it passable for vehicles other than stone wagons and coal trucks. Referred to that board.

Alderman Shultis for Alderman Connelly, that Kingston Consolidated Railroad Company fill holes between and at side of tracks on St. James street, between Fair street and Clinton avenue, and on Clinton avenue, between St. James and Cedar streets. Referred to chief of police to serve on railroad company.

Alderman Purvis for Alderman Connelly, that board of public works be requested to repair Henry street, between Pine street and Clinton avenue. Referred to that board.

Heating that knows no winter!

"Family gatherings" are the happiest hours of life where the home is snugly warm on bitter cold nights. Nothing else contributes so greatly to this contentment and aids best mental development as does the ample flow of genial, cleanly, comforting warmth from

AMERICAN & IDEAL

RADIATORS & BOILERS

These outfits warm the house and make a home! Put in quickly. Phone your local dealer today!

IDEAL Boilers and AMERICAN Radiators are built scientifically to extract and distribute the greatest possible volume of heat from each ounce of coal. Two-thirds of the heating surface of an IDEAL Boiler is directly around the fire—absorbing the utmost heat from the fuel. Heat is circulated three times as rapidly as in old-fashioned heaters—which is one of the strong reasons why IDEAL Boilers burn one-third less fuel than other devices, and permit cheapest fuel to be used.

Burn one-third less cheap fuel than other devices

Easy to put coal in the roomy door—a whole day's supply put in a minute's time. Easy to shake because you stand erect—gently shake only a few grate bars at a time. The same water is used for years. An IDEAL Siphon Regulator will control draft and check dampers automatically to suit weather. The price is the closest possible between manufacturer and user. Price is no higher than asked for ordinary makes. Accept no substitute! On each IDEAL Boiler and AMERICAN Radiator our name is cast—your guarantee.

Send today for "Ideal Heating" (free), giving much valuable information on fuel economies—for homes, churches, stores, schools, and other buildings. Act now, and your home-life will know no sting of winter!

Another great labor-saver—stationary Vacuum Cleaner

You can wonderfully reduce house-labor and protect home health by use of ARCO VACUUM CLEANER—sits in basement or side room; works through an iron pipe running to all floors; cleans carpets, furnishings, walls, ceilings, clothing, mattresses, furs, etc. In sizes at \$150 up. Ask also for catalog (free).

ELECTION OFFICERS' REQUEST DENIED

Common Council Adopts Report of Its Committee Which Was Not in Favor of Granting Increase of Pay and Gives Reasons Why.

The petition of the election officers of the city asking for an increase of pay amounting to \$1,456, was turned down by the committee on finance, ways and means of the common council, and the report of the committee submitted at the regular meeting of the city fathers on Tuesday evening was unanimously adopted. The report which gives the committee's reasons for not granting the increase follows:

To the Common Council: Gentlemen:

Your committee on Finance, Ways and Means, to whom was referred by your honorable body at your meeting held on November 8th, 1916, two petitions from the election officers of this city, viz., one from the inspectors of election praying for an increase in compensation for services as such inspectors for days of registration, from seven to ten dollars per day, and one from all election officers asking for an increase in compensation for services on day of election, from ten to fifteen dollars for election day in 1916, respectfully report thereon as follows:

Neither of these petitions reached your honorable body for consideration until after the services referred to in both petitions had been performed, so that the question arises as to the legality of increasing compensation of city officers after such services have been performed, and in the face of a resolution of the common council enacted prior to the appointment qualification and services of such officers, fixing compensation thereof, and after money to pay such compensation so fixed and no more had been placed in the tax levy. Reasoning from the question thus raised, your committee is of the opinion that the common council would be exceeding its power and authority by undertaking to increase the compensation of election officers after services had been performed, and funds for which had not been provided.

Your committee therefore report adversely on these petitions in so far as increase of compensation for year 1916.

As to increase of compensation for election officers for year 1917, your committee respectfully refer that after back to your honorable body without recommendation, except to say that if any increase be contemplated it ought to be ordered at this meeting so that the mayor may include such increase in his estimate of monies needed for year 1917.

As information to your honorable body, your committee append hereto statement of compensation allowed at present and amount of compensation as based on increase asked for in petitions referred to:

Present Compensation.

GEORGE N. PARISH,
Committee on Finance Ways and Means.

Antiquity of the Dog.
It is impossible to say when dogs were first domesticated, but some of the earliest traces are found on Egyptian monuments, with figures of dogs, somewhat of the greyhound type, which date back to at least 3500 B. C. Even in those remote days the dog was highly esteemed. Coming down a little later, we read that Ulysses 3,000 years ago was recognized by his dog Argos after his wanderings had failed to do so. Pindar speaks of Alcibiades, who cut off the tail of his dog, and Myron, the sculptor, immortalized the animal by chiseling his image in marble. The Romans valued their dogs and kept them for the chase and also as pets. Alexander the Great owned a veteran dog to tackle a lion.

Get the Wrong Person.
In no other household except that of a doctor could this mistake, reported by the Louisville Courier-Journal, so plausibly have occurred.

"Get my hat for me at once," boomed the doctor. "Some fellow telephones in a dying voice that he can't live without me!"
"Just a moment," interposed his wife. "I think that call is for daughter, dear!"

VAN WAGENEN'S

Longfellow and Tennyson.

Longfellow and Tennyson were not personal friends of long standing, but they became friends late in life. Longfellow was born February 27, 1807, and Tennyson August 6, 1809, but they never met until 1863, when Longfellow visited England. "Long from there to a friend in this country," he said: "I came last night from Freshwater where we had passed two happy days with Tennyson—not at his house, but mostly with him. He was very cordial and very amiable and gave up his whole time to us."

Protection Against Catarrh.

Any constitutional exercise which improves the circulation and makes the body resistant helps to protect one from catarrh. This is particularly true of all breathing exercises because the effects are beneficial locally as well as constitutionally. Says one of the best-known physical culture teachers in New York: "So let us teach our children the value of correct and deep breathing, and in doing so we improve our own health and thereby impart cheerfulness and happiness to our home."

CHRISTMAS CLUB'S SAVINGS \$100,000

National Ulster County Bank Had 4,500 Depositors in Association This Year—Moving Pictures to Show Benefits for 1917.

Nearly \$100,000, the yearly savings of 4,500 members of the Christmas Club of the National Ulster County Bank, will be distributed one week from Friday. This sum is an increase of \$20,000 over last year and affects 700 more members. The thrift of these depositors will result in an average sum of \$22 to be paid each club member for Christmas gifts. Such a large amount of money has never before been floated at the holiday time and merchants will probably experience the largest sales ever.

To the two classes of membership this year will be added two more for the 1917 club. Class 50, with weekly deposits of fifty cents, and Class 50a, in which one dollar a week will be paid, have been added to the two former classes. No. 2, from two cents a week up, and No. 5, starting at five cents the first week and adding five more each week, although in the two last named classes the payments may be reversed, starting with the largest sum and decreasing the installment each week.

The 1917 club opens December 18 and closes January 2, in which period an even larger number of members is expected. To advertise this saving proposition, the bank will show a short moving picture film at the auditorium this evening and at the opera house each evening for the rest of the week. A Christmas story in connection with the Christmas Club will be the subject.

SAUGERTIES.

Saugerties, Dec. 6.—The sixth annual picnic of Snyder Hose Co. was held last evening in Russell Block, and participated in by the members, honorary and associated.

Four porkers were required to satisfy the appetites of those present. Hoyer's orchestra of five pieces furnished the music.

"Star Makers" T. 1200, No. 34, Saugerties, on Monday, December 14, elected the following officers:

President, Augustus J. Brown; vice-president, Sylvester McCarthy; financial secretary, M. M. Fitzgerald; recording secretary, William J. Wright; treasurer, William C. Ohley; trustees, John A. Glimore, M. W. Fitzgerald and George Kasel.

William J. Daley of Saugerties and Miss Eva R. Van Steenberg of Cedar Grove, were married by the Rev. J. V. Wemple at the Reformed parsonage Saturday evening, December 2.

Mr. and Mrs. Frederick Schneider have returned from their wedding trip.

Health Officer Dr. James Krom was a Kingston visitor on Tuesday.

Miss Eva Smith of Main street has entered the employ of Reed & Reed on Partition.

Mrs. John DuBois and sons of West Bridge street have returned from a visit to Schenectady.

Irring Van Valkenberg, formerly of Saugerties, was before Justice Childster Tuesday afternoon on a charge of abandonment sworn out by his wife.

WHEN IS ONE DEAD?

Uncertainty of Rigor Mortis Discussed by Medical Examiners.

An important article on the above subject was published in the New York World Magazine of December 3rd, which read as follows:

What are the means used to prove that death has positively occurred? was a question put to postulators by the State Board of Medical Examiners of Maryland at the June examinations. The correct answer is given as: "The complete and permanent cessation of circulation and respiration, rigor mortis, loss of bodily heat, pallor of the body, putrefaction."

Rigor mortis, the condition of rigidity into which the muscles pass after death, begins at a time varying from about fifteen minutes to about six hours. It begins in the face and progresses downward, and the muscles relax in about the same order after twenty-four hours.

In a recent article in America, Dr. Austin O'Malley pointed out that it was often impossible to tell at what moment death occurred, and that about this that it is a rule for priests to administer the last sacraments (conditionally, of course) even several hours after apparent death, there being many cases on record in which a person believed to be dead has revived.

This was one of the important questions in the Edwin Van Alen case and was referred to by the court of appeals in its opinion.

MR. & MRS. RICHARD CROKER

CROKERS HERE TO AVOID HORRORS OF WAR.

New York, Dec. 6.—Richard Croker, former head of Tammany Hall, and his Indian Princess bride, are in the United States today having come home to escape the horrors of the European war. It was noticed that Mr. Croker had changed a great deal since his last trip here. The well-trimmed beard that had adorned his face for many years was entirely gone, and his mustache was so close as to be almost unobscurable. Mr. Croker said he expected to remain in this country for at least three years. He said that suffering is very widespread in Ireland, and gave as his principal reason for coming to the United States a desire to escape the horrors of war.

Color blindness was discovered by the famous Dr. Priestly in 1777.

New York details twenty-five firemen to give fire drills in public schools.

It costs Holland about \$2,000,000 a year to maintain its dikes.

Economy is a virtue, but with people it is also a necessity.

A Word About Diamonds

The Diamond—one of the rarest, most valuable
and beautiful of all stones—is considered to be the aris-
tocrat of all gifts. When buying a Diamond don't be
guided by appearance alone. Its quality depends upon
its color, purity and skill with which it is cut, and only
an expert is able to judge these things correctly.

We have every facility for mounting Diamonds in
any way you wish—in a ring, brooch, pendant or in
whatever form you wish to present them. We bought
Diamonds largely before the last advance, as we always
do. We mount them all in our store. We guarantee
every Diamond (as we do everything else we sell) to be
as represented. We will not buy poor, dull, badly cut
Diamonds. We nor our customers have any use for
them.

Solitaire Diamond Engagement Rings
\$10.00 to \$500.00

YOU WILL NEED MONEY FOR CHRISTMAS

Here Is

An Easy Way to Get It
A Sure Way to Have It

Join Our Christmas Club Which Starts December 18th, 1916

In Class 2, pay 2c the 1st week, 4c the 2d week, 6c the 3rd week, and so on for 50 weeks and we will mail you a check two weeks before Christmas for \$25.00.

Or in Class 3, pay 5c the 1st week, 10c the 2nd week, 15c the 3d week, and so on, and we will mail you a check two weeks before Christmas for \$50.00.

You May Reverse the Order of Payments If You Wish to Do So

For instance, in Class 3, going up, the payments start with 5c and end with \$2.50. If you desire to do so, you may start with \$2.50 the first week and pay 5c less every week until the last week's payment will be 5c. You may do the same in Class 2.

Should You Prefer to Pay an Equal Amount Each Week You Can Do So

In Class 50, the payments are 50c each week for 50 weeks and two weeks before Christmas you will receive a check for \$25.00.

In Class 100, the payments are \$1.00 each week for 50 weeks and two weeks before Christmas you will receive a check for \$50.00.

Payments Must Be Made Every Week or

May Be Made in Advance For Any Number of Weeks

Can you think of an easier way to provide money for Christmas presents?

Join yourself—get everyone in the family to join. Show this to your friends and get them to join.

Everybody Is Welcome to Join

The Christmas Club opens Monday, December 18th, 1916, and you can join any time from December 18th, 1916 to January 2nd, 1917. Call and let us tell you all about our plans.

Make Your Christmas a Merry One

Open evenings from 7.30 to 9, December 27th, 28th and 29th for enrollment of Christmas Club Members.

National Ulster County Bank

Corner Wall and John Streets, Kingston, New York

CITY FATHERS NAME IT HAZEL

New Street Between Emerick and Stephan Street Named in Honor of Alderman Schick's Daughter.

Hazel street was the name unanimously adopted by the city fathers at the regular meeting on Tuesday evening for the new street that has been laid out between Emerick and Stephan streets. The street was named in honor of Alderman Schick's daughter, Miss Hazel Schick.

Some time ago R. E. Leighton, of the Universal Road Machinery Company, called attention to the fact that two railroad crossings would be eliminated if a new street was cut through Emerick and Stephan streets, and said his company would donate a certain parcel of land needed free of charge. The matter was taken up at length and the West Shore Railroad gave the other half of the parcel needed to complete the street, and the only cost to the city was the work of opening the street.

At the last meeting of the common council the naming of the new street was referred to a committee consisting of Aldermen Schick, Shultis and Connelly. At the meeting Tuesday evening Alderman Connelly and Shultis reported the committee had decided upon the name of Hazel for the new street.

Alderman Connelly said that the naming of a street is an important matter. Alderman Schick had represented the Third ward for some time past and had made a capable official, and the two members of the committee had seen an opportunity to show appreciation of the services of the alderman from the Third and so had decided upon the name as stated.

The resolution that the new name be adopted was offered by Alderman McKittick and unanimously adopted.

Alderman Schick thanked the aldermen for what they had done in a few well chosen words.

PORT EWEN.

Port Ewen, Dec. 6.—The annual fair and festival under the auspices of the Ladies' Aid Society of the Methodist Church was given a rousing welcome last evening on their opening night by a large attendance at their chicken supper, which was served in faultless style and thoroughly enjoyed. Over 250 people attended the entertainment. "The Summer Girl Minstrels," and all participants acted their parts in a very acceptable and pleasing manner. Doyle's orchestra furnished excellent music and the whole affair was one of the best of the season. This evening a chicken chowder and roast pork supper will be served and an entertainment entitled "High Class Vaudeville," by home talent.

Everybody come.

Mr. and Mrs. Harry Neal and son, David, of Phoenixia, who have been the guests of Mr. Neal's parents, Mr. and Mrs. Charles Neal, on Broadway, have returned home.

The Misses Mae and Gertrude Whalen, who are teaching school at New Paltz and Highland, have returned to their duties after spending Thanksgiving in New York city.

The following Masons attended the third degree ceremony at Roundout Lodge, No. 342, Free and Accepted Masons, at their lodge room Monday night: Dr. G. W. Ross, Captain H. Van Wart, Abram Parsell, A. Taylor, Arthur Fronefield, Dr. Charles H. Bishop and John Groves. Mr. Groves was raised to the sublime degree of Master Mason. A banquet was served.

Mrs. William Fairbrother of Brooklyn is the guest of her sisters, Mrs. Lyman Sleight and Mrs. Olive Banks, on Broadway.

There will be a play given in Pythian Hall New Year's night under the direction of T. H. Richards for the benefit of the Methodist Episcopal Church. Further particulars will be announced later.

Robert Lauchback of Brooklyn, who has been the guest of Mr. and Mrs. Ezra Hotelling on Broadway, has returned home.

Mr. and Mrs. William Shook, who have been the guests of Mr. and Mrs. Henry Van Aken on Railroad avenue, have returned to their home at Edgewater, N. J.

The teachers of the Reformed Sunday school met at the home of Miss Etta Ellsworth on Broadway Monday evening. The following officers were elected for the ensuing year: Superintendent, John R. Monroe; assistant superintendent, Ezekiah Hotelling; secretary, Evelyn Bugg; treasurer, Harry Hotelling; librarians, Alexander Secor, Elvin Hutchings, Elliot Hotelling. After the business was transacted refreshments were served by the hostess.

John Groves, who spent a few days at his home on Broadway, returned to Brooklyn Tuesday.

Early Saws and Knives.

The saw appears to be the earliest tool that has been traced in Egyptian history. It was found first in the form of a notched bronze knife in the third dynasty, or about 3,000 years before the Christian era, and was followed in the fourth and fifth dynasties by larger-toothed saws, which were used by carpenters; but there are no dated specimens until the seventh century before the Christian era, when the Assyrians used iron saws. The first knives on record were made out of flint, and were, in fact, saws with minute teeth.

Retribution Sure.

Those folks who like to gossip are sure also to be made the subject of gossip. When a fellow lies about others he's sure to have the truth told about himself.

FLATBUSH TRAGEDY RECALLED BY SUIT

On Whether Susie Caban and Her Lover Had a Suicide Pact Depends the Amount of Insurance to be Paid.

On July 13, 1915, Susie Caban who resided with her parents on the Flatbush road, failed to return to her home at the close of her day's work in the Rose store at East Kingston and the following morning Susie with her lover, Martin Sulko, was found dead in a small patch of woods a short distance from her home. Susie with a bullet hole in her breast and her lover with a similar wound made by a revolver bullet. Near Sulko was a revolver with which the double crime had been committed.

As a result of the deed, which was at the time classed as a suicide pact between the young people, brought on by the refusal of the girl's parents to allow her to marry, the Slavonic Evangelical Union of America is being sued in supreme court by Martin Caban and his wife, the parents of the girl for \$1,000, the amount of an insurance policy which she held in the defendant company.

According to the policy, she was to receive \$1,000 upon her death provided she did not meet her death by suicide. If such was the form of death the amount to be paid was but \$100, unless she had been insured for five years.

Attorney A. C. Connelly with Joseph M. Fowler of counsel, claim that there was no suicide in the case and the company should pay the full amount of the policy. To substantiate their claims they point out the fact that there were cuts and wounds about the girl's head and body when she was found and that there was no suicide pact as the defendant claims but she met her death through violence.

D. G. Atkins with Milton Auchmoody of counsel, claim that the couple entered into an agreement that if they could not marry they would at least die together and in this way the company is not liable to pay the amount of the policy but the \$100 is all that the plaintiff is entitled to. They have made a tender of the \$100 and the offer was refused.

The young people had become engaged in spite of the disfavor of their parents and Susie had been given an engagement ring by Sulko. On July

23, 1915, Susie did not return from her work at the usual hour and a search revealed the two bodies in the patch of woods on the following morning. At the time the deed caused quite a stir among the peaceful villagers in the neighborhood and was fully described in the papers.

According to the policy which Susie took out in the society \$400 was to be paid to her father, \$400 to her mother and the remaining \$200 was to be paid in funeral expenses.

Sam Astalos, treasurer of the society at Flatbush, was called to the witness stand and testified that Susie had always paid her dues and was in good standing at the time of her death. Susie boarded with Astalos and his family.

A large number of witnesses have been summoned and the case will probably take considerable time to try.

ROSENDALE.

Rosendale, Dec. 6.—The Rev. and Mrs. Simmons, pastor of the Baptist Church, are visiting out of town.

Red Cross Christmas Seals are now on sale and can be secured from Mrs. C. V. Hasbrouck.

Thanksgiving celebrations were held in many homes for those who were here for the holiday.

The Misses Helen Stone and Dorothy Washburn, guests of Miss Skinner, have returned to their home in Poughkeepsie.

The Boy Scouts and their friends, through Scoutmaster Rev. J. G. Cameron, donated several boxes and baskets of food stuffs, vegetables, fruit, jellies, etc., to St. Faith's Home at Tarrytown, N. Y., on Thanksgiving Day.

The ladies of the Dutch Reformed Church will hold a fair and chicken supper on Thursday of this week, December 7, in the parsonage adjoining the church.

We are glad to see Abram Sammons out these fine days after his recent illness and hope for continued improvement.

Emery North is jubilant, having caught two fine red foxes.

Mrs. Minturn is very busy dress-making and does fine work for her many patrons.

The ladies of All Saints' Episcopal Church will hold their Christmas bazaar and supper on Tuesday, December 12, in the parish house. It is hoped that their friends and parishioners will respond generously with contributions for the sale and supper. The hall will be appropriately decorated, also the tables, with their fine display of fancy articles suitable for Christmas gifts. Supper at 6 o'clock for 25 cents until all are served. Then an evening of sociability with dancing and music. A cordial welcome extended to all. If stormy, next fair evening.

By La Racontene.

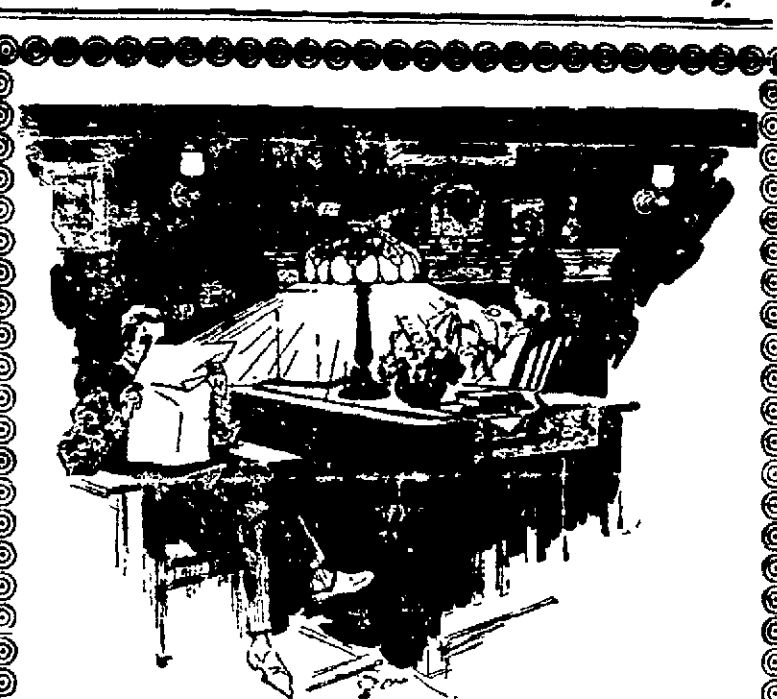

One cannot ignore the importance of the net dance frock this season, since it is so essentially youthful and invariably flattering. The frock shown is in flesh silk net over a foundation of flesh metal cloth. Chenille embroidery is cleverly featured on the border edge of the drop skirt, this showing charmingly through the silk net. The bodice is of silver lace with strap shoulders and odd wing sleeves of net.

The Clever Woman.

When you feel genuinely ill at ease with a clever woman, it is generally because her cleverness is artificial. Some women, however, are even cleverer than this, for they can conceal their artificiality so well that you actually laugh with them over someone else who is just as artificial as they are.

The Right One to Question.

"Jimmy, did you take the pennies out of the cup on the table?" I asked my youngest son. "No, mother," said Jimmie, aged five. "You must not tell a story, Jimmie, because God sees everything and you know you can't hide from him." "Ask him who took the pennies, then," was the curt reply.—Cleveland Leader.

At the End of a Hard Day

What better than to get into

slippers and shirt sleeves—lounge deep down in your favorite chair—and forget your worries in a book or magazine. On the other side of the Gas Table Lamp friend wife finds it does not tire her eyes to do even the most delicate of embroidery. She can match the varicolors of the silks so well, too, by Incandescent Gas Lights.

A Gas Table Lamp Is a Wonderful Comfort

The soft, restful light—a light which is not injurious to the eyes—makes a Gas Table Lamp truly the ideal home light.

ANNOUNCEMENT IN REGARD TO OUR WALL PAPERS

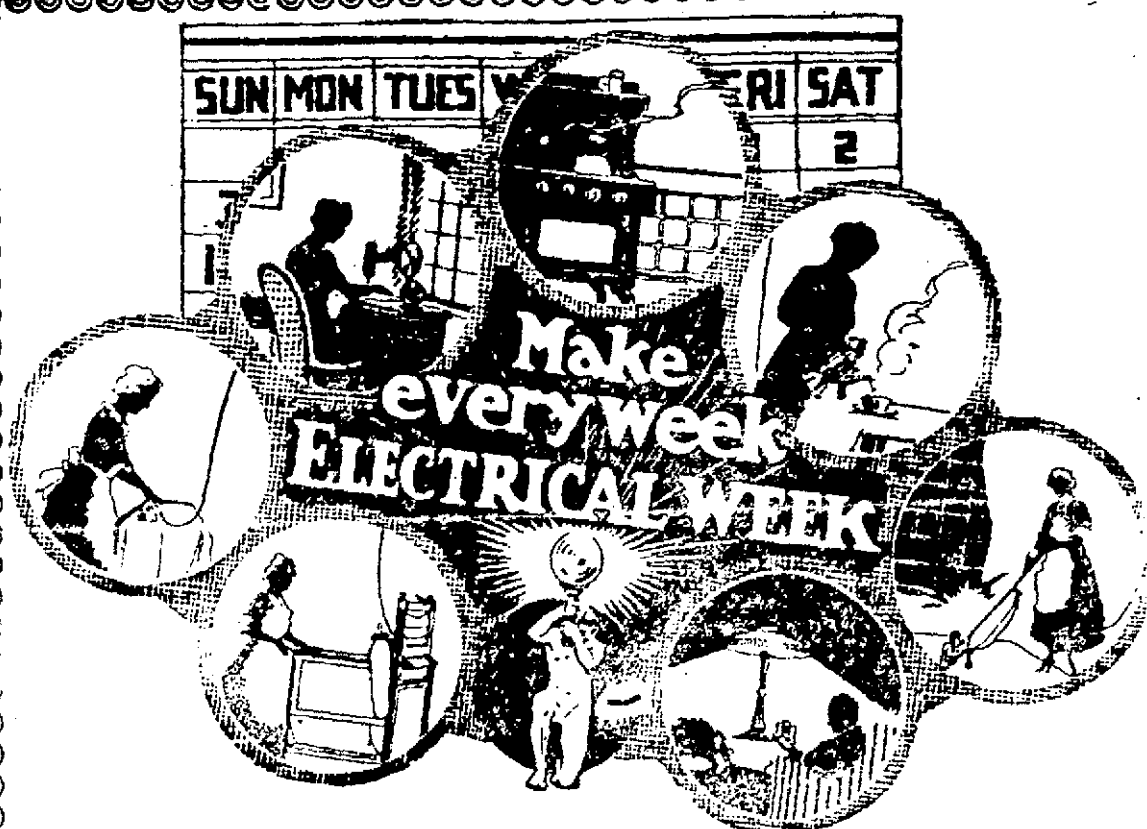

The manager of our Wall Paper Department spent several days the past Autumn in attendance at the Annual Display of Wall Paper Manufacturers in New York City. After a critical inspection of several lines he decided to select from those which to him seemed the most attractive. As a result, we shall have for this season the choicest creations of the leading manufacturers in the country. Not only the commercial values but also the artistic merits of each were kept in mind while making the selections. Our experience of many years has been that no one line could fill satisfactorily all the demands of our large number of particular customers, so we have taken the BEST out of many lines. In doing so, we eliminate the idea of sameness in design and have a variety of patterns and color schemes than which there is no greater in the state outside of New York City. TWO FLOORS of our building are devoted to the Wall Paper Department. Our stock comprising nearly 80,000 rolls, enables one to make a pleasing selection for any room in a home or public place. As our stock was purchased before the recent advance in price we can sell it at the VERY LOWEST PRICES in the city.

We shall take great pleasure in submitting the same to you for your inspection. Do not decide to buy until you have seen our wonderful collection of Wall Hangings—cheap in price but expensive in appearance.

MATTERS BEFORE THE SURROGATE

The will of Anna Raschke of this city has been admitted to probate in the surrogate's court. To her granddaughter, Amelia M. Van Buren, daughter of a deceased son, John T. Meder, the testatrix bequeaths \$50 and directs that a monument be erected on Mr. Meder's burial lot at a cost of not less than \$150. The balance of the estate she gives equally to her three children, George M. Meder, Mary Ingram and C. Augustus Raschke, and appoints Mr. Raschke and Mary Ingram executors. The will was executed August 19, 1914 and witnessed by J. E. Derrenbacher and Frederick Stephan, Jr. The value of the personal estate is \$5,600 and there is no real estate. Frederick Stephan, Jr., appeared for the executors.

Letters of administration on the estate of Richard V. Wicks of the town of Esopus were issued to his widow, Melinda E. Wicks. The value of the real estate is \$7,500 and there is no personal property. Van Buren & Cook appeared for the administratrix.

DANCING IN ROUMANIA.

Peasants Make Merry on Sunday to Oil Their Joints For Monday.

The Roumanian peasants have a saying that they must dance on Sunday to keep the creak out of their bones on Monday. Most of the dances are at the public houses—dance halls under the blue sky, as it were—and young and old gather there. The old folk spend the day with the tippie, while the young ones dance. There is very little drinking on any other day of the week, and a tipsy man except on Sunday is seldom seen.

The dances are organized by the boys of the community. They arrange for the music, provide the refreshments and preside as masters of ceremony. When the girls reach a marriageable age and have been sufficiently instructed in the household arts they are allowed to attend these dances as participants. "She dances at the dance" is the peasant way of saying that a girl has made her debut and is eligible for matrimonial attentions.

The national dance of Roumania is a sort of cross between a jig and the game of ring-around-the-rosie. All the dancers clasp hands and form a ring. They then begin a stepping, swaying motion that never moves them out of their original tracks, and to the music of the gypsy band they keep it up for hours.—St. Louis Post-Dispatch.

STORY OF A SONG.

"Ben Bolt" and Its Author, Dr. Thomas Dunn English.

Of all the American songs none is so hauntingly sweet as that beginning: Love, you remember sweet Alice, Ben Bolt.

Sweet Alice, whose hair was so brown, Who wept with delight when you gave her a ring.

And trembled with fear at your frown? Dr. Thomas Dunn English, its author, contributed his poem to the New York Mirror in 1848. It was a work of love, written without compensation, to oblige the editor, N. P. Willis, who had recently undertaken to put the paper on its feet.

The poem had a pathetic life that attracted no little attention, but its fame did not come until later years. In 1848 Nelson Kneass, an actor, adapted the poem to an old German melody, and the air captivated the American people. Then the song crossed the water, achieved an equally great success in England and literally ran round the world.

It remained for George Du Maurier to immortalize "Ben Bolt" in the play "Tribble," where the gentle victim of Svengali sings the air so sweetly to Tatty the Laird and Little Billee.—New York World.

The Doctor's Prescription.

Of historical interest is the emblem found on every prescription written by a physician, consisting of the letter R with a thin line across the tail at an acute angle. According to historians, it had its origin in the ancient custom of allowing the stars to dominate every-day incidents of life. The R thus marked is said to have been the emblem used by the ancients to designate the supremacy of Jupiter. Therefore it seems probable that some chemist of ancient days gave a prescription of a recipe to some patient and wrote upon it the emblem of the planet then in the ascendancy, which happened to be Jupiter. This emblem has come down to the present time and is always used. In a more modern sense it stands for a recipe, or an order or instruction to take something. Literally construed, recipe means "take" or "take thou."

How to Learn to Write.

Putting words together is not writing; making fine sentences is not writing; elaborating striking plots is not writing. Of all the arts literature is the most exacting mistress. To write you must have lived, you must have suffered and know joy, you must be able to analyze people, to understand their motives, to love them.

Granted that you have learned something of the motives, the passions, the sorrows that rack us humans, then you must also have your medium in control. Words are like little creatures that march and fight and sing. They are like extra bands and brains. All the passions wait on them. Until you get this sense of the choiceness, the fragility, the power of words, you are not ready to transcribe your thoughts.—American Magazine.

Fond Farrot-Dolly, how are you getting along with your arithmetic? Dolly—I can add up the naughts all right, but the figures still bother me.

JIMMY O'HAGEN NEW STAR IN FIGHT WORLD.

Jimmy O'Hagen, the Albany (N. Y.) middleweight, who in a few weeks rose from obscurity to a foremost contender for the 155-pound championship. O'Hagen's challenge to Mike Gibbons, issued a month ago, is still unanswered. O'Hagen is at present negotiating for a match with Champion Al McCoy.

Tolstoy's Intensity.

Everything in Tolstoy's character, says a Russian writer, attains titanic proportions. "As a drinker he absorbed fantastic quantities of liquor. As a gambler he terrified his partners by the boldness of his play. As a soldier he advanced early to bastion four, the bastion of death at Sevastopol, and there he made dying men laugh at his mirth songs. He surpassed every one by his prodigious activity in sport as well as in literature."

Dogwood Dye.

Dogwood was the source of the famous "Indian red" with which the rain warriors dyed their eagle feathers and buckskin clothes. They procured the dye from the roots of the tree. This is probably the most brilliant dye to be procured from American trees.

—IN—
"LADY AUDLEY'S SECRET"

Objected to the Publicity.
Man's instinctive and perfectly reasonable preference for regimond delivered in private is illustrated by a story told by Lieutenant General Sir William Butler, G. C. B., in his autobiography.

A general commanding at Aldershot had been forcibly reprimanded by a royal commander in chief. He openly rebelled.

"I don't mind being called a fool," he said, "if it pleases your royal highness to call me so, but I do mind being called a fool before your royal highness' other fools," sweeping his hand toward the commander in chief's large and brilliant staff.

Javanese Music.
The angklung or bestra is a peculiar Javanese instrument. The instrument known as the angklung is made of a Java bamboo tree. Different instruments have bamboo tubes of different tones, and they are played like the chimes one sees in handbell or the musical glasses. The airs are simple, but characteristic. When Dwight Edmundson was in Java he wrote out the music of an angklung air and brought a set of the instruments to the United States. This orchestra makes music for the characteristic "holby" dance of Java. The dancers twirl their paper designs, decorated to represent the head, neck, mane and tail of a horse, and gallop wildly about.

BERNSTEIN'S

THE TOOTHBRUSH SQUAD.

KIDDIES LEARN THE USE OF TOOTH BRUSH.

Chicago has just finished celebrating dental week. One of the features of the week devoted to the instruction of mouth hygiene was classes in "tooth-brushing" held at the public schools. The photograph shows children of the Franklin open air school being taught how to clean their teeth.

Professional Mourners.

In ancient times funerals were followed by professional mourners, who simulated the appearance of the wild grief. The custom survives in the valley of Sondrio, in the Alps. There the women do not follow the funeral, but they group themselves at the entrance to the cemetery and burn, in honor of the dead, candles which vary in size according to the remuneration. They are as prodigal as were the mourners of ancient times in their simulation of excessive grief.—London Spectator.

LEARN TO SAVE.

Learn how to save. Saving produces a peace of mind unknown to him who in time of misfortune must depend on the bounty of his friends. Determine to save, for will power is the prime essential. Deposit regularly. Lay aside some portion of each week's or month's income. Deposit extra and unexpected receipts.

Curious Courtship.

In the strange land of the Tarasque Indians in Mexico the visitor, after training something of a friendly feeling, may still witness some of the equally strange practices which the first Spaniards observed. In courtship the lover goes to the well where his loved is accustomed to fill her water jar. He holds her shawl until she accepts him, and then with a stick breaks the jar which she holds on her head and gives her a betrothal bath of water.

FIREMEN FINED FOR BOOZING

Fines have been imposed by the fire commissioners upon the five firemen who at Friday night's meeting of the board pleaded guilty to partaking of intoxicating liquors while on duty recently, which violation of the rules was discovered by Pinkerton detectives.

Chief Chipp was fined fifteen days' pay, amounting to \$53.40; George Brown and J. Lundy Strubel of the Central Station, and LaRue Weber of the Cornell Station, were fined ten days' pay, or \$23 each. John Hoffman of the Wiltwyck Station, was dealt with more leniently, a fine of two days' pay, or \$4.60, being meted out to him.

The commissioners in inflicting the fines expressed the hope that the occurrence would never happen again and judging from the moral effect the revelation has had upon the department, it will be a long while before the paid firemen are found guilty of such a violation of the rules.

Rossini's Jealousy.
Rossini was intolerably jealous of all his musical contemporaries and particularly of Meyerbeer. In 1836 he heard "The Huguenots," and on listening to the performance from the beginning to the end he made up his mind that Meyerbeer had excelled him and determined to write no more operatic music. He lived until 1868, but produced nothing for the lyric stage. His thirty-two years of retirement were spent in the pleasures of a voluptuary. He was particularly fond of good eating and drinking and assembled about him the youngest and gayest society he could attract to his house.

Watch Your Pep.
Pep is a slang word invented to convey the idea of those who are always up and about, who are full of "ginger," who never go to sleep at the switch. When you are full of pep you can go a long way toward doing almost anything. But pep runs out. If your stomach goes back on you because you don't know how to take care of it; if you consort with weak minded people, taking on the color of their weak mindedness; if you burn the candle at both ends, then your pep runs low. Watch your pep.—Life.

SMART SUIT.
Simplicity of Line and Good Tailoring Here.

Brown velours de laine is the fabric of this suit, cut so severely and well. Its only trimming is self buttons at

YOUTHFUL LINE.

tractively set and skunk collar and cuffs. The hat is also a brown velours trimmed with pink dahlia.

CHRISTMAS CAKES.

Several Recipes Especially Suited to the Holiday Spirit.

Wash and dry one pound of almond meats and put through a meat chopper with the brown skins. Stir one pound of sifted sugar and one cup of finely cut peel of candied lemon and add the beaten whites of six eggs, flavor with cinnamon and set a part of this mixture aside. Roll the remainder out to a water-like thickness, first adding the almonds. Cut into stars and brush with some of the mixture you have on aside and bake in a slow oven. These cakes improve in flavor with keeping.

Lebkuchen.

Over 600 years old, these little honey cakes have lost none of their popularity. Put two ounces each of orange peel and citron through the food chopper, half a pound of almonds sliced fine; mix these together with two cups of honey, two tablespoonfuls of cinnamon, one tablespoonful of clove, one teaspoonful of nutmeg, one teaspoonful of baking soda, wineglass of brandy, grated peel of one lemon, two ounces of brown sugar and enough flour to make a stiff dough; knead well, let stand overnight. In the morning roll out, cut in desired shapes, bake on well greased and floured pans in a moderate oven twenty minutes. Ice with sirup and water cooked to a fine thread. These cakes will keep all winter and improve with age.

Plaffernusse.

These cakes are truly delicious. To a half pound of sifted flour add half a pound of powdered sugar, two eggs, two ounces of citron, grated rind of one lemon, half a teaspoonful each of nutmeg and cloves, one tablespoonful of cinnamon, one teaspoonful of baking powder. Beat the eggs in a bowl, adding the spices, flour, baking powder and sugar; knead well, form in small round cakes the size of a half dollar, bake on well greased tins in a slow oven, brush with a sirup made of sugar and water cooked to a thread; then roll in pulverized sugar.

English Cripps.

One cupful of sugar, one-half cupful of butter, one and one-half cupfuls of molasses, three cupfuls of flour. Melt the butter and the other ingredients, mix well together and drop by small spoonfuls far apart on a greased flat baking tin. Bake in a rather slow oven, remove from the tin with a broad bladed knife and place over the edge of a bowl to curl and cool.

Artistic Color Schemes.

Brown tulle or chiffon is often used in artistic color schemes, veiling other colors smokily, as in the case of an odd and beautiful deep greenish blue over which brown chiffon was thrown, with a little fur and metal embroidery for trimming; but these effects call for an artist's color sense, and the one tone frocks of the "putty" and "beige" and "taupe" class are a safer proposition. In satin of considerable luster they have more life than in materials of dull surface and are often becoming where other material in the same color scheme would be trying.

What "Marinate" Means.

Marinate merely means to cover with a dressing and stand thus two or more hours.

The average person wastes lots of time telling other people things they do not care to hear.

The first standing army, consisting of guards and regular troops, was formed by Saul in 1066 B. C.

MISS BESSIE M. COULTHARD

FEARING THIEF GIRL PUTS LOVE NOTES IN VAULT.

(Miss Bessie Coulthard.)

Passaic, N. J., Dec. 6.—Fearing that the 400 odd love notes that she says were written her by Edward Max Applegate, a prominent attorney of this city, would be stolen, Miss Bessie M. Coulthard, who is suing him for \$100,000 breach of promise, has had them locked up in a safe deposit vault. Miss Coulthard is a school teacher. She says the letters are all she has to show that Applegate promised to marry her.

Saloniki's Old Churches.

The finest remains of the ancient city of Saloniki are its churches. How they ever survived the tempests of the Middle Ages is a miracle. Nevertheless they did. 22 of them. And they stand today, turned back into churches after their 500 years of use as mosques, illustrating the story of Byzantine ecclesiastical architecture even more beautifully, in certain ways, than those of Constantinople. Moreover, they make up among them a museum of the lost Byzantine art of mosaic, unrivaled save in Constantinople and Ravenna.

"Coals to Newcastle."

"To carry coals to Newcastle" means to do something that is superfluous. Newcastle being a great coal field, carrying coals there would be a type of unnecessary action. The French have a saying "to carry water to the river" for the same thing, and there are several Latin equivalents.

There are moments when the pale and modest star, kindled by God in simple hearts, which men call science, illumines our path with truer light than the flaming comet of genius on its magnificent course.—Mazzini.

On the Unparalleled

HIGH MARKET

HERE'S ONE ANSWER

BECAUSE

We do business every day in the week—lots of it. We don't have to confine our store to one little city—we're in fourteen of them. We're getting tremendous quantities of goods all the time. Therefore you can be the winner—our methods are not new to us—we've been giving big values always, and now the market allows us to do bigger stunts than ever.

Every day some new face comes into our store and becomes another "steady"—it can't be stopped.

We're called a "Common Store for Common People, at Uncommon Prices"—and it's true—every word of it!

DAY STATE TOWNS ON WATER WAGON

By Telegraph to The Freeman.

Boston, Dec. 6.—The sweeping victory for the no-license forces in the fifteen city elections which swung four wet towns to dry and out the wet vote in every city but two, sent the license advocates scurrying about today in increased fear that the sweep may include Boston.

Fall River, Haverhill, Taunton, and Leominster were the cities to swing into the no-license column. Taunton had been wet for sixteen years. No dry city was swung into the wet column. Gloucester was the only wet city to increase the yes majority.

Exemplify Floral Degree.

Clinton Chapter, No. 415, O. E. S., will exemplify the floral degree on a lady candidate at its meeting Friday evening. The degree work will be illustrated with stereopticon features and special music and the chapter extends a cordial invitation to all Stars and Master Masons to be present.

Strike in Navy Yard.

New York, Dec. 6.—Three hundred workmen engaged in the building of the new battleship New Mexico in the Brooklyn navy yard are on strike today because of a demand for higher wages not having been granted.

More Heating in the Mountains.

Miss E. Hogan in having her property at Ashokan improved, and is installing a Beaver heating and ventilating system. The Canfield Stove Co. is doing the work.

Even the smallest pieces of finely broken glass can be easily picked up with a little wad of wet absorbent cotton, which can then be destroyed by burning.

THE FACT IS THING & CO. SELL FOR LESS THE

IS HOW CAN THEY DO IT On The Unparalleled High Market.

HERE'S ONE ANSWER BECAUSE

Way back in the sixties when Abe Lincoln was elected, a gentleman down Maine way began selling shoes and as he learned the desires of his customers, he expanded—became bigger and bought bigger. The bigger buyer he became the cheaper he bought—the more stores he opened the cheaper he could sell—and as he lived he grew! The same principle remains.

Today fourteen cities are removing about two million dollars' worth of footware from our stores—same ratio of profit today that was decided on fifty years ago.

Now faces among the old customers every day this year more than ever!

Because, We Give the Biggest Dollar's Worth!

That's why You'll find other answers on other pages.

**31 North Front St.
UPTOWN**

NOTICE is hereby given that the annual meeting of the Kingston Life Co. will be held at the office of the company, 31 North Front St., Kingston, on the 15th day of January, 1917, at two o'clock, p.m. for the purpose of electing a full board of directors for the ensuing year and inspectors of the company, and for the transaction of such business as may properly come before the meeting.

JOHN C. GILBERT, Secretary.

NOTICE TO CREDITORS: In pursuance of an order of Hon. Walter S. Hall, judge of the county of Ulster, notice is hereby given according to law to all persons having claims against John J. Campbell, late of the city of Kingston, county of Ulster, deceased, intestate, to present the same with the vouchers in support thereof, to the undersigned, John J. Campbell, administrator of the estate of said deceased, at his residence, No. 50 St. James St., Kingston, in the said county of Ulster, on or before the 10th day of June, 1917.

Dated, December 6, 1916.
JOHN J. CAMPBELL, Administrator of the Estate of John J. Campbell, deceased.

V. B. Y. Wagoner, Attorney, Kingston, N. Y.

34 PARALYSIS CASES EXAMINED

Thirty-four Ulster county patients who were victims of the infantile paralysis epidemic last summer and fall were examined by Drs. Lovett, Whitman and Hodges at the clinic held at the Ulster County Laboratory under the direction of the State Department of Health on Tuesday.

Another clinic probably will be held for the same patients and such additional patients as were unable to come here on Tuesday, and the next clinic will be held some time during the winter or early spring, in order that the physicians who made Tuesday's examinations may determine what progress the paralysis victims have made toward complete recovery under the treatment which was prescribed.

When the next clinic is held, the physicians will have before them the record of Tuesday's examinations and this will enable them to tell the extent of the progress made by each patient. Supplementing the record of the cases made on Tuesday will be reports of the visiting nurse who will have supervision of the four counties comprising this district, and the oral reports of parents and family physicians.

Complete Recovery Possible.

Complete recovery from the effects of the disease are possible under proper treatment in some cases and Dr. Whitman's clinic was for the purpose of determining the extent to which the muscles have been left in a paralyzed condition and to prescribe the treatment needed for each case. Some cases, however, are impossible of complete restoration to normal condition. The treatment, as stated in Tuesday's Freeman, may be exercise of certain muscles, braces to prevent deformities, or baths, or a combination of various treatments. No parent or physician left the clinic Tuesday in doubt regarding the methods to be followed if the children are to be saved from deformity for the rest of their lives.

A copy of the record, or result of the examination, on Tuesday will be furnished to town and city health officials from whom the supervising nurse may obtain it before visiting each of the patients during the time she will be stationed in this district. The tests made by the supervising nurse before the next clinic is held will determine whether the treatment prescribed is having a beneficial effect, and her instructions will be carried out by the child's parents.

Ulster Patients Older Than Average.

The three experts employed by the Department of Health—Drs. Lovett, Whitman and Hodges—were surprised by the fact that the Ulster county patients, produced at Tuesday's clinic and also at the clinic recently held at Saugerties, were much older than the average of children who have had the disease in other counties and who have been examined at the clinics held elsewhere in the state.

In other counties, the victims of the epidemic were found at the clinical examination to be between two and four years of age. Ulster's average was never 7 years. The oldest was a boy fourteen years old who came from Highland. The good care and treatment he had received since his sickness had resulted in a practically complete recovery. Some of the children, however, walked on crutches and will continue to walk with their aid for many months to come but it is hoped that the treatment prescribed will be followed so successfully that eventually they will be restored to complete health, strength and vigor, with entire use of all their muscles.

OFFICERS ELECTED.

Annual Meeting of Albany Avenue Baptist Bible School.

The regular monthly meeting of the officers and teachers of the Albany Avenue Baptist Bible School was held on Monday evening at the residence of the Rev. A. S. Cole, pastor of the church, at which time the following officers were elected for the ensuing year: Superintendent, I. C. Godfrey, assistant superintendent, Bernard W. Healy; lady superintendent, Miss Ethel Hull; secretary, John W. Matthews; treasurer, Charles W. Snyder; and librarian, Kenneth Bassett. Reports of the officers were received and approved. The report of the secretary, Mr. Matthews, showed that the progress of the school had been steady and consistent, and that despite the fact of the school being closed during the epidemic this summer yet the average attendance was within 1 per cent of that of last year, and the proceeds were bright for the ensuing year in all departments, and the Philanthropy Class under the leadership of Mrs. Elsie M. Pratt was doing fine work. The report of the treasurer, Mr. Snyder, showed that the finances were in good shape with all bills paid and substantial sum in the treasury. It was decided to have special services on Christmas Eve, Sunday, December 24, in the church when a program of song and story would be rendered and to hold the usual Christmas entertainment in the church on Wednesday evening, December 27, at which time Santa Claus would be present. At the close of the business session a talk on Japan was given and refreshments served.

Life Sentence for \$600 Fraud.

By Telegraph to The Freeman.

New York, Dec. 6.—Convicted of swindling a friend out of \$600 in payment for a worthless phonograph machine, Charles E. Ackron today faces a sentence of life imprisonment despite the comparative pettiness of his offense. Under the state law the penalty is mandatory as Ackron has already served three prison terms for stealing and forgery. Sentence will be pronounced Monday.

BILLY EVANS SOLVES BASEBALL PROBLEMS

Written Especially for This Paper by the Famous American League Umpire.

Several years ago a very interesting play, which created considerable discussion, came up in the International league. Plays which create argument and discussion are always unnatural plays, and this one was no exception to the rule. The contending clubs were two of the leaders in the race, and, since the result of the play determined the winner of the game, the contest went to protest.

In the ninth inning, with the home team a run behind, things started to happen. With two out, the home club managed to get men on first and third. A hit would at least tie the score. The batter responded with a safe drive to left, on which the man on third jogged home. The runner on first went to third on the hit, while the batter managed to reach second on the throw-in. In going from first to third, the runner originally on first had neglected to touch second. The umpire had noted the omission, and so had the shortstop of the team in the field. The latter called for the ball and touched second, the umpire thereupon calling out the man who appeared safe at third. This out retired the side.

The umpire allowed the run to score, which tied up the game, and the home team managed to win out in extra innings. If you had been umpiring that contest, gentle reader, would you have allowed that run to score from third on the clean hit to left by the batter?

Answer to Problem.

The run does not count. The failure to touch second has made a force play of the third out, pure and simple. In a way it is almost another Merkle play. Since the runner who went to third never legally touched second, the throwing of the ball to that bag by the outfielder makes a force play out of the affair, the ball beating the runner to the bag. Rule 50 says that no run can be scored on a force out, which this play is, even though the man forced out is standing on third in apparent safety.

Not only does the failure to touch second make void the run, but it also robs the batter of a clean hit, as the scoring rules say in no case shall a base hit be scored when a base runner is forced out on the play. This play is an unusual force out, but is force out nevertheless, as the ball beats the runner to second.

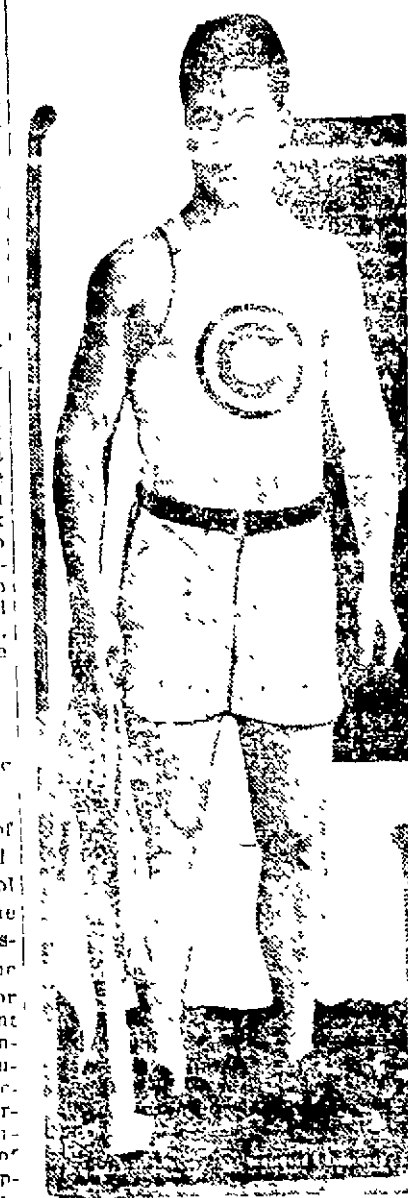

(Copyright by the Wheeler Syndicate, Inc.)

IS BEST ALL-ROUND ATHLETE

Events in Which Avery Brundage Excels Are Shot-Putting, and Hammer and Discus Throwing.

Avery Brundage, a Chicago contractor twenty-nine years of age, recently captured for the second time the all-around athletic championship of the United States. This does not mean that Brundage is individually the swiftest runner, the highest or broadest jumper or the greatest weight-thrower in the country, but that his average proficiency in all these sports combined is beyond that of his rivals. His victory was achieved by a score of 487 points over his nearest competitor.

This remarkable athlete stands a shade over six feet in height, weighs 195 pounds, and since graduation from the engineering school of the University of Illinois he has devoted all his

Avery Brundage.

spare time to athletics. He is now in the contracting business on his own account and is in the open air most of the day. From May until October he puts in two hours every night exercising under the moon and stars. In winter the same two hours are spent in a gymnasium where he varies his routine by playing a great deal of hardball. Though a speedy runner and a great walker, the events in which he excels are shot-putting and hammer and discus throwing, and these are his favorite sports.

In a life so strenuous as the champion's there is no time left over for diversion, so it is not astonishing that Brundage is still a bachelor.

Magist Keeps Up Good Work.

Art Magist, the Oklahoma middleweight, appears to be keeping up his good work in Australia. His most recent victory was a 20-round win over Fred Kay, one of Australia's topnotchers.

Human Nature.

Some men are not only eager to give the devil his due but they insist on adding a fat bonus. It is the Lord who usually finds collections poor.—Houston Post.

LITTLE PICKUPS OF SPORT

The eight-hour law doesn't hold good in a chess game.

Soccer is a great game to play if you are tired of living.

One thing we need not worry about just now is the baseball score.

Golf may be a summer game, but it gets a heavy play in the winter.

There's no chance for a rest. If it isn't Gibbons-Dillon, it's Welsh-Kilbane.

It is said that it will be compulsory for all umpires to speak English next season.

Whenever a ball player feels cold in winter he thinks of St. Louis in summer.

With iron crosses for soldiers there ought to be leather medals for football heroes.

Because a billiard table is supplied with cushions it must not be imagined that it is a soft game.

Since bullfighting is not permitted in this country how do managers of fighters get away with it?

After the showing it has made this year Tufts will probably have a hard time arranging games next year.

Pitchers are not supposed to be good hitters, but there are quite a few who seldom fail to hit batters.

American boxers do well in Australia, save a headline. Just as long as they keep away from Les Darcy.

After reorganization, the Ohio State league will include only Ohio cities, making it really what its name implies.

Jimmy Austin and Ward Miller, two members of Fielder Jones' St. Louis Browns, are slated for some other norths.

Bankers say there is too much gold in the United States, but they will never be able to make Freddie Welsh believe it.

Don't blame the sultan of Turkey for writing a poem on the war. A western man has written one on the baseball umpire.

Hockey is one of the best-known insomnia cures. Sometimes the players don't wake up for a couple of hours after a scrimmage.

The University of Nebraska declined an invitation to play a post-season football game in Boston against Tufts, Brown or Dartmouth.

Ohio is no longer a very prolific mother of presidents, but kindly observe the aggressiveness of the football players it is turning out.

Coach Andy Smith of the University of California, former Penn fullback, has in Money and Liversedge what he considers to be the most remarkable pair of guards he has ever seen.

Tris Speaker gives the best evidence in the world that golf won't injure the batting eye. His evidence is his old baseball bat, with which he took premier swatting honors in the American league.

More Likely.

Landlady—I'm sorry you told the chicken soup isn't good. I told the cook how to make it. Perhaps she didn't catch the idea. Boarder—No, I think it was the chicken she didn't catch.—London Tit-Bits.

FOR YOUNG FOLKS

Sleepy Time Story That Comes From Faraway Japan.

HOW A FISH LOST ITS SHELL.

Very Queer Medicine That Was Prescribed For an Undersea Queen—Adventures of a Monkey and a Tortoise. Severe Punishment For a Tattle Tale.

Well, said Uncle Ben to little Ned and Polly Ann, tonight I am going to tell

A FISH STORY.

Did you ever hear how the jellyfish lost its shell? The Japanese say it was in this way:

Once in the long ago the jellyfish had a shell which covered his soft body and kept him from getting hurt.

He was quite a somebody at the court of the sea queen and treated others with a very grand air indeed. It happened once that the sea queen was taken quite ill. The king was much troubled.

At last some one said that if the queen were given the liver of a monkey to eat she would get well.

Now there are no monkeys in the ocean, so when the king made up his mind that the queen must try a monkey liver he sent out the tortoise to look for a monkey.

The tortoise traveled until he came to an island where there were a number of monkeys playing and chattering in the treetops.

The tortoise was pretty sure none of the monkeys would go with him willingly, so he tried a trick. He lay down under a tree and waited until a frolicsome little monkey came so near that he could catch it and hold it with his claws.

Then he told the monkey that unless it came with him of its own free will and without struggling he would kill it.

So the monkey said all right, he would go with the tortoise. They started out, the monkey riding on the tortoise's back.

This was the first monkey which had ever visited the ocean world, and every one was interested in it.

"Poor thing!" I wonder if it knows its liver is to be eaten," said the jellyfish as he watched the monkey frolicking around teasing the fishes.

So the jellyfish took the monkey aside and told it the fate in store.

The monkey had no wish to lose his liver and so he pretended to the king and queen that he must go back to land and get his liver, which he had left hanging on a tree.

He went back as he had come on the tortoise's back, but that was the last seen of him for as soon as he got safely to shore he ran quickly away and never came back.

When he learned that the jellyfish had tattle to the monkey the sea king was very angry and said that after that the jellyfish should be punished by losing its shell and having to go undressed forever after.

A Young French Soldier.

The boy who is here shown in uniform is a real soldier, and he fights for his native country France in the trenches. This youthful warrior's name is Jacques Veilor, and he is only thirteen years of age.

Photo by American Press Association. JACQUES VEILOR.

teen years of age. He can handle a gun as well as his grown up comrades. Jacques appears to have learned one bad habit in his soldiering, that of smoking. He probably thinks he looks manly with a pipe in his mouth, but tobacco is not good for one so young. Nevertheless Jacques is said to be a valiant fighter.

Jelly Jinks.

Jolly Jinks, the sailor-man, went to sea in an oyster can. But he found the water wet. Fishes got into his net. So he put his boat to shore. And vowed he'd sail the seas no more.—St. Nicholas.

DAVID LLOYD GEORGE
LLOYD GEORGE MAY BE BRITISH PREMIER.

Several striking changes in the British Cabinet are being rumored in London. It is said that David Lloyd George, now Minister of War, may succeed Prime Minister Asquith, who has resigned. Bonar Law may assume the post of Premier for a time, but Lloyd George, it is said, will assume the duties of that office as soon as a successor to the war ministry can be settled upon. The resignation of Asquith and the succession of Lloyd George probably would mean the appointment of a special War Council, to consist of Lloyd George, Bonar Law, Arthur Balfour and Sir Edward Carson.

BARON & BARONESS SAKATANI, JAPANESE BARON AND BARONESS RETURN TO TOKYO.

The Baron and Baroness Sakatani, who are on their way to Tokyo today, after a European and American trip. They attended the Allies' economic conference in Paris. The Baron is said to have been the personal representative of the Mikado. While in the United States the Baron gave an interview on the Japanese question, which caused quite a sensation.

(By La Romaine.)

This rather impressive combination, with its regal appearance, might have been inspired by the Russian. The fascinating collar which rolls above the chin and is fastened in a charming manner by the bow knot is not less disconcerting than the tall velvet turban relieved by its coronation by the tulle rose and fur crown.

Black—I want to put my money into something safe. White—Try a friend of mine.—Exchange.

You have not fulfilled every duty unless you have found that of being pleasant.—Charles Buxton.

Tried It. Gosh—I am satisfied of one thing. Our forebears certainly did pass the time at home most uncomfortably. Snappers—How do you know? Gosh—I've been buying a lot of snug furniture.—Browning's Magazine.

WEDNESDAY, DEC. 6, 1916.

Sun rises, 7:10; sets, 4:33.
Weather, partly cloudy. Humidity, 34 to 66.

The Temperature.

The lowest point registered by the Freeman's thermometer last night was 42 degrees. The highest point registered up to noon today was 48 degrees.

Weather Forecast.

Washington, Dec. 6.—Fair tonight and Thursday; strong westerly winds, diminishing by Thursday morning.

COMMON COUNCIL
STILL SIDESTEPPING

Although there were several representatives of St. John's Church at the session of the common council on Tuesday night no motion was made regarding what action the city fathers intended taking on the church-theater proposition. The matter is still in the hands of the committee on laws and rules who have so far made no report.

Just One Man.

An entertainment under the auspices of the Missionary Society of the Christian Endeavor Society of the Church of the Comforter will present the play "Just One Man" in the lecture room of the church on Friday evening of this week at 8 o'clock. The entertainment will consist of the three act farce and also musical and literary selections.

ALDERMAN SCHICK
STILL ON TRAIL

Wants Board of Public Works to Reconsider its Action in Closing Stone Crushing Plant and Gives His Reasons.

That Alderman Schick of the Third ward is still on after the board of public works to have that body reopen the stone crushing plant on Stephan street was again demonstrated at the regular session of the city fathers on Tuesday evening, when he introduced a resolution that the board reconsider its action in closing down the plant. The resolution was unanimously adopted and referred to the board.

Some time ago Alderman Schick introduced a resolution asking the board to reopen the plant and at the last meeting of the common council Mayor Canfield, president of the board of public works, replied to the resolution giving the reasons why the board had taken the action it had. The mayor's answer was printed in full in The Freeman at that time.

Tuesday night Alderman Schick was extended the privilege of the floor while he explained his reasons as to why he thought the board should reconsider its action. The alderman said that he could not agree with the board of public works that the cost of running the crushing plant was too high and that it was cheaper to buy crushed stone outside the city. He said the roads show that stone was crushed for less than \$1 per ton, and still can be done. He said that he could not contradict the board that it had cost them over \$1 per ton for crushing stone this year as stated in their report as he did not know how the plant was operated.

In reference to leasing the plant to some one the alderman said that he understood it would not pay an individual to operate the plant as there is not sale enough for the stone to pay the plant being operated the year round. The plant has always been operated with satisfactory results in the past, said the alderman and he could not agree that the stone could not be taken out easily as he had had experienced men visit the quarry. As for complaints from residents in that vicinity regarding blasting he could not say, but he did know that the blasting is further away from any residence than at any other time since the plant has been in operation.

He agreed with the board that \$1 per ton is too great a cost, but he did not agree with them that the cost averaged the same in previous years as records show that the plant had been operated for from 75 cents to \$1 per ton in previous years. In closing the alderman said that he did not mean that the board should continue to operate the plant to the same extent in the future, but they should arrange to continue it in some other part of the city where it could be satisfactorily worked.

Alderman Fischer said he had seen stone barges laying in the creek for several days before they were unloaded and wanted to know who paid the demurrage charge of \$22 a day.

Alderman Schick said he did not know, but it was likely that the customer who bought the stone would have to pay for the demurrage if there was any.

There was no further discussion and the resolution introduced by the alderman from the Third ward was unanimously carried.

Musk Radioactive.

It has been recently determined that the penetrating quality of musk is due to certain radioactive properties which it possesses that cause odor of the perfume to be carried through the air in an extraordinary way, says the Indianapolis News. The radioactive property of musk affects strangely the natives who carry it to market. If a package of musk is held close to the body for any length of time it produces sores that are similar in character to those caused by pure radium.

At Last Illuminated Keyholes. Announcement was made at Harrisburg, Pa., of the formation of the Violet Ray Enamel company, which will manufacture an enamel which will give a clear violet ray at night and be useful in enameling door fastenings, locks, keyholes, house numbers and doorplates. — Pittsburgh Gazette Times.

WarrensROUTINE WORK
BY SUPERVISORS

An appropriation of \$500 to be raised on the county for the repair of bridges in the town of Hardenbergh was recommended by the committee on highway accounts to the board of supervisors Tuesday evening but no recommendation was made in regard to a resolution introduced some time ago for a similar amount for a similar purpose in the town of Denning.

Highway Committee's Report.

The highway committee reported bills presented amounting to \$1,032.77, which had been audited at that amount, and recommended that such amount be raised on the county. Included in the bills allowed were claims amounting to \$315.01 incurred in the proceedings instituted by the town of Manakating, Sullivan county, against the town of Shawangunk and the county of Ulster to compel repair of a county line bridge, of which amount \$105 should be borne by the county and \$210.01 should be borne by the town of Shawangunk. The committee recommended that the amount stated be raised on the town of Shawangunk. The committee also recommended the adoption of the resolution of Supervisor McElhorne to raise \$5.92 on the county to pay the county's proportion of the cost of repair of county line bridges in the town of Shawangunk, and the resolution of Supervisor Gray to raise \$500 on the county for repair of bridges in the town of Hardenbergh. The report was placed on file.

Resolutions Introduced.

The following resolutions were introduced and went over under the rule:

By Supervisor Coons to raise \$500 on the town of Shandaken for support of the poor.

By Supervisor Hartshorn, to raise \$1,165.45 on the town of Plattekill to pay two notes and interest at the Huguenot National Bank, issued for removal of snow.

By Supervisor Vanderlyn, to raise \$1,000 on the town of New Paltz and pay to supervisor, to reimburse the supervisor's general fund on the town for moneys paid for the town's proportion of the cost of constructing the New Paltz-Plattekill county highway No. 512.

By Supervisor Hartshorn, to raise \$343.25 on the town of Plattekill to pay interest on road 353 bonds.

By Supervisor Catherwood, to raise \$2,250 on the town of Wawarsing to pay Greenfield road bonds and interest.

By Supervisor Catherwood, to raise \$1,000 on the town of Wawarsing outside the village of Ellenville to pay certificate and interest at the Home National Bank, issued for removal of snow.

By Supervisor Schoonmaker, to raise \$100 on the county to reimburse the county for the cost of examinations on behalf of the county for examinations in lunacy.

By Supervisor Schoonmaker, to raise \$1,000 on the town of Poughkeepsie to supply deficiency caused by unpaid and rejected taxes of that town.

By Supervisor Dulatt, to raise \$42.85 on the town of Denning to supply deficiency caused by unpaid and rejected taxes of that town.

By Supervisor Vanderlyn, to raise \$40.00 on the town of New Paltz to supply deficiency caused by unpaid and rejected taxes of that town.

By Supervisor Vanderlyn, to adopt the report of the committee on highways accounts and to raise \$1,022.77 on the county to pay bills audited by that committee, and to raise \$210.01 on the town of Shawangunk to reimburse the county for the town's proportionate share of the cost of proceedings instituted by the town of Manakating, Sullivan county, against the town of Shawangunk and the county of Ulster.

Resolutions Adopted.

Supervisor Saxe introduced a resolution which was adopted, to add the name of Charles Diamond to the 1916 tax roll of the town of Hurley with the valuation of \$1,000 for his property, which was omitted in copying the roll for 1915, together with a tax at the 1915 rate, to be collected this year.

The following resolutions heretofore introduced were called up and adopted:

By Supervisor Hartshorn, to adopt the report of the committee to acquire rights of way for state roads and to raise \$2,968 on the county to pay for rights of way purchased by the committee.

By Supervisor Fratscher, to adopt the report of the committee on coun-

Everything Ready
Do Your Xmas
Shopping Early

Everything Ready for Christmas!

Don't postpone your Xmas shopping. This advice to shop early was never more serious than at this holiday season, 1916.

WE'VE PROVIDED BOUNTIFULLY

The demand for reliable, practical Christmas gifts will be greater than ever. Owing to scarcity of merchandise and higher prices it will be impossible for us to replace our stock with the same extraordinary values.

The Right Merchandise at Right Prices

In addition to our regular line of Dry Goods, Ladies' Coats, Suits, Furs, Shirtwaists, Petticoats, Bath Robes, Gloves, Mittens, Men's Shirts, Ties, Suspenders, etc., you will find many other attractive tables filled with fancy articles, both useful and ornamental, put up in holiday boxes, attractively arranged for your convenience.

Out-of-town mail or telephone orders promptly filled. Uncle Sam delivers by parcel post at small expense.

The Downtown Dry Goods Store

Where You Always Get Maximum Value at the Minimum Prices
(Downtown) 26 BROADWAY, KINGSTON, N. Y.

Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Cleveland's, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

There is no alum nor phosphate in
